# LOOKING FORWARD

-  Raise spirits and membership involvement. In order for everyone to feel like they are part of a community, we want to stay in touch with our members.
-  Expand the number of students. To encourage interest in public service and AGA membership among students and young professionals in accountability, we wish to make contact with them. We'll get in touch with schools and universities, and the committee will include a student adviser in addition to a young professional leader.
-  Create partnerships with other businesses. We hope to establish enduring ties with other accounting and financial groups.
-  Maintain consistency and expansion by increasing CPE offerings and broadening our CGFM education program.
