CIRCULAR A-136  
Revised

**TO THE HEADS OF EXECUTIVE DEPARTMENTS, AGENCIES, AND OTHER ENTITIES SUBJECT TO THE CHIEF FINANCIAL OFFICERS ACT, THE ACCOUNTABILITY OF TAX DOLLARS ACT, AND THE GOVERNMENT CORPORATION CONTROL ACT**

SUBJECT: Financial Reporting Requirements

The Office of Management and Budget (OMB), with input from the financial management community, has updated OMB Circular A-136, Financial Reporting Requirements. This update clarifies and streamlines reporting requirements and reflects current Federal generally accepted accounting principles.

This revision of Circular A-136 is effective upon issuance, unless otherwise specified in this Circular. Questions about this Circular A-136 should be directed to the Office of Federal Financial Management's Financial Integrity and Risk Management Branch at (202) 395-3993.

## I. GENERAL INFORMATION

### I.1. Guide to the Circular

This Circular provides guidance for **Executive Branch entities**<sup>1</sup> required to submit audited financial statements, interim financial statements, and Performance and Accountability Reports (PARs) or Agency Financial Reports (AFRs) **under the Chief Financial Officers Act of 1990 (CFO Act)**, as amended; **the Government Management Reform Act of 1994 (GMRA)**; and **the Accountability of Tax Dollars Act of 2002 (ATDA)**. This Circular also provides general guidance to **Government corporations** required to submit Annual Management Reports (AMRs) **under Chapter 91 of title 31, United States Code**.

Throughout the Circular, “must” and “will” denote a requirement that management must comply with in all cases; “should” denotes a presumptively mandatory requirement that applies except in circumstances where the requirement is not relevant for the agency; and “may” and “could” denote best practices that may be adopted at the discretion of management. “Government” refers to the United States Federal Government.

“Disclose” and “disclosure” refer to information in the notes to the financial statements and “recognize” and “recognition” refer to information in the financial statements.

“Significant entity” refers to those reporting entities identified in the Treasury Financial Manual (TFM), Volume 1, Part 2, Chapter 4700, Appendix 1a as significant entities, which are also listed in this Circular’s Appendix A. The TFM is available at [Treasury Financial Manual \(TFM\): Bureau of the Fiscal Service](#).

A term or statute is generally referred to in its full form the first time it is used in this Circular; after that it is referred to by its acronym or short form. Similarly, standards, concepts statements, and other guidance promulgated by the Federal Accounting Standards Advisory Board (FASAB) are generally cited in full the first time they are used; after that they are cited by number.

FASAB documents cited in this Circular may be found at: [fasab.gov](https://fasab.gov). Office of Management and Budget (OMB) documents cited in this Circular, including OMB’s audit bulletin, *Audit Requirements for Federal Financial Statements*, may be found at: [Bulletins | The White House](#).

### I.2. Superseded Guidance

This Circular supersedes OMB Circular A-136, “Financial Reporting Requirements,” dated August 10, 2021.

---

<sup>1</sup> “Entities” is used throughout this circular to refer to reporting entities as that term is defined by the Federal Accounting Standards Advisory Board (FASAB).

### I.3. Entities Subject to this Circular

The table below summarizes which sections of this Circular apply to each type of reporting entity.

	Section I	Section II	Section III	Section IV
Entities subject to the CFO Act	Required	Required	Required	Required
Entities subject to the ATDA	Required	Required	Required	Required if listed in Appendix A
Government Corporations following FASAB	Required	Required	Required	Required if listed in Appendix A
Government Corporations registered with SEC and subject to standards promulgated by an entity other than FASAB		See first two paragraphs below table.	See first two paragraphs below table.	Required if listed in Appendix A
Government Corporations not registered with SEC and subject to standards promulgated by an entity other than FASAB	Section I.5 (deadlines) required	See first two paragraphs below table.	See first two paragraphs below table.	Required if listed in Appendix A

Significant entities subject to standards promulgated by an entity other than FASAB are required to provide the Department of the Treasury’s Bureau of the Fiscal Service (Fiscal Service) certain audited information that is necessary for the audit of the Government-wide financial statements using MAX (see Appendix B). This includes information for Note 5 (Investments), Note 21 (Dedicated Collections), Note 35 (COVID), and Note 38 (Reclassified Financial Statement Line Items). The information to be provided and the manner of obtaining audit coverage must be determined in consultation with Fiscal Service.

Components of Executive Branch Departments or agencies required by law to issue financial statements prepared in accordance with accounting standards other than those promulgated by FASAB must comply with those standards. For further information, see Statement of Federal Financial Accounting Standard (SFFAS) 34, *The Hierarchy of Generally Accepted Accounting Principles (GAAP), Including the Application of Standards Issued by the Financial Accounting Standards Board (FASB)*.

The agencies covered by this Circular are “reporting entities” and “component reporting entities” under SFFAS 47, *Reporting Entity*. Reporting entities must prepare organization-wide financial reports (AFR or PAR). Entities that are consolidated in the Government-wide financial statements are referred to as component reporting entities and consolidation entities.<sup>2</sup> In addition, reporting entities may be made up of component reporting entities.

<sup>2</sup> SFFAS 47, paragraph 68, states that SFFAS 34, *The Hierarchy of Generally Accepted Accounting Principles, Including the Application of Standards Issued by the Financial Accounting Standards Board*, recognized that some reporting entities prepare financial reports “pursuant to the accounting and reporting standards issued by FASB” and that such reports “may be regarded as in conformity with GAAP.” Paragraph 68 goes on to say that “consolidation entities (that is, the consolidated government-wide financial reporting entity or a consolidated component reporting entity) may consolidate component or sub-component reporting entity financial statements prepared in accordance with SFFAS 34 without conversion for any differences in accounting policies among the organizations.”

Under SFFAS 47, inclusion in a reporting entity's financial statements may take the form of consolidation or disclosure. Each reporting entity is responsible for all entities "administratively assigned" to it under SFFAS 47, paragraphs 58-65. Agencies should review SFFAS 47 and consult with OMB and Fiscal Service if they have questions regarding which component entities to include in their financial statements.

#### **I.4. Circular Effective Date**

This Circular is effective in its entirety upon issuance unless otherwise specified.

#### **I.5. Submission Deadlines**

Final AFRs, PARs, and AMRs are due to **OMB, Treasury, the Government Accountability Office (GAO), and the Congress** by close of business November 15, 2022.

The final report should be posted to the agency website the same day the report is submitted to OMB, Treasury, GAO, and the Congress. A report that is compliant with Section 508 of the Rehabilitation Act of 1973, as amended, (29 U.S.C. § 794d) must be posted no later than 15 calendar days after the final report is posted. The report's location must be clearly identified on the agency's homepage.

A **complete draft** of the AFR, PAR, or AMR is due to OMB's Office of Federal Financial Management (OFFM) and the appropriate OMB Resource Management Office no later than 10 business days before the final AFR, PAR, or AMR is due using MAX (see Appendix B). Agencies should provide their draft audit report to OMB as soon as it is available.

**Summary of Performance and Financial Information.** Agencies may publish a Summary of Performance and Financial Information.

**Interim Financial Statements.** Agencies must submit unaudited interim (as of June 30<sup>th</sup>) financial statements and notes by August 15<sup>th</sup>. See Section III.

#### **I.6. Submission Format**

**Interim Financial Statements and Draft Reports.** Agencies are required to use MAX (see Appendix B) to submit Draft AFRs, PARs, and AMRs. OFFM will submit comments on Draft Reports using MAX. Agencies are encouraged to work directly with their OMB Resource Management Offices to establish the format in which those comments will be provided.

**Final Reports.** Agencies should submit final AFRs, PARs, and AMRs to **OMB and Treasury** using MAX (see Appendix B) and to **GAO** (using the contact information in Appendix B).

Agencies must also submit their final reports to Congress. Copies must be provided to the Speaker of the House of Representatives, the President and President pro tempore of the Senate, the chair and ranking minority members of the Senate Committee on Homeland Security and Government Affairs and the House Committee on Oversight and Reform, the chair and ranking minority members of the Budget committees, and relevant authorization and oversight committees and appropriations subcommittees. Agencies should consult with their legislative or congressional affairs staff to obtain congressional contact information and to determine whether electronic copies are adequate. Searchable electronic copies and other cost-saving production measures are

encouraged, recognizing that financial report users tend to prefer clear and concise text, tables, and graphics over glossy photos, videos, and other costly visual aids.

## **II. AGENCY FINANCIAL REPORT OR PERFORMANCE AND ACCOUNTABILITY REPORT**

### **II.1. General**

The CFO Act, as amended, and the ATDA require Executive Departments and agencies to prepare audited financial statements and chapter 91 of title 31, United States Code, requires Government Corporations to prepare AMRs.

Under the Reports Consolidation Act of 2000, with the concurrence of the OMB Director, agencies are permitted to submit combined statutorily required reports for financial, performance management, and other purposes where the consolidation of the reports will enhance the usefulness of the reported information. The PAR and AFR consist of annual financial statements and other reports such as agencies' assurances on internal control, accountability reports by agency heads, and Inspectors General (IG) assessments of agencies' most serious management and performance challenges. The PAR also includes the Annual Performance Report required by the Government Performance and Results Act (GPRA).

#### **II.1.1. Required Contents of the AFR or PAR**

**Agency Head Transmittal Letter.** Pursuant to the Reports Consolidation Act of 2000 (31 U.S.C § 3516), a transmittal letter from the Agency Head must be included in the AFR or PAR and:

- (1) must contain "an assessment by the agency head of the completeness and reliability of the performance and financial data used in the report" and
- (2) the assessment must "describe any material inadequacies in the completeness and reliability of the data, and the actions the agency can take and is taking to resolve such inadequacies."

In addition, the letter should describe any material weaknesses in internal control and actions the agency is taking to resolve the weaknesses.

**Management's Discussion and Analysis (MD&A) (Section 1)** must include an assurance statement signed by the Agency Head. See Section II.2 below.

**Performance Section (PAR Section 2).** See OMB Circular A-11, Part 6.

**Financial Section (AFR Section 2 or PAR Section 3).** See Section II.3 below. This section must contain the auditor's signed report and may contain a CFO Letter, which may summarize plans (including time frames) for correcting audit weaknesses and instances of non-compliance, any impediments to such plans, and the progress made in addressing previously reported audit weaknesses and instances of non-compliance.

**Other Information (OI) (AFR Section 3 or PAR Section 4).** See Section II.4 below.

### **II.2. MD&A – AFR/PAR Section I**

#### **II.2.1. Purpose, Responsibility, and Scope**

An AFR or a PAR must contain, as required supplementary information (RSI), an MD&A section in accordance with SFFAS 15, *Management's Discussion and Analysis*, paragraphs 1 through 8. The MD&A should focus on the information most likely to affect the judgment or decisions of users of the AFR or PAR.

The MD&A should address the topics of sections II.2.2 through II.2.6 below and should contain section titles that would be meaningful to financial report, for example, section titles could correspond to major program. As noted in section II.2.5 below, a section entitled “Analysis of Systems, Controls, and Legal Compliance” is required by OMB Circular A-123.

Pursuant to the GPRA Modernization Act, the APR is the primary document for comprehensive organizational performance reporting. Therefore, the discussion of performance goals, objectives, and results in the MD&A should include only summary non-financial performance information of the entity’s overall organizational performance that is needed to provide context for the financial information.

Pursuant to SFFAS 15, information on risk, including both financial risk and risk to the agency’s achievement of its goals and objectives, could be discussed throughout the MD&A sections, as appropriate.

## **II.2.2. MD&A Mission and Organizational Structure**

The MD&A should summarize the reporting entity (including any consolidation or disclosure entities under SFFAS 47) and its mission(s), major programs (as defined by management and consistent with the Statement of Net Cost (SNC)), and organizational structure.

## **II.2.3. MD&A Performance Goals, Objectives, and Results**

An agency’s APR compares actual performance results achieved against the goals, objectives, and outcomes established in the Agency Strategic Plan and Annual Performance Plans. It contains comprehensive, detailed performance reporting, and information required by OMB Circular A-11, Part 6.

To comply with SFFAS 15 and provide context for the financial information, the MD&A should discuss organizational performance results compared to broad organizational outcomes. The MD&A presentation should minimize duplicative reporting with the APR. In addition, the MD&A should link goals to cost categories or responsibility segments in the SNC and/or budgetary resources, as appropriate.

Because systems supporting performance data are generally more dispersed and less automated than financial systems, collecting and validating performance data (for use in a discussion of organizational performance) may take longer than collecting and validating financial data. In addition, the schedule for publishing APR differs from the schedule for publishing AFRs. For these reasons, the MD&A should state when and where the APR will be available.

## **II.2.4. MD&A Analysis of Financial Statements and Stewardship Information**

The MD&A should provide an integrated summary of the entity’s financial results, position, condition, and performance, including:

- Significant changes (as determined by management) in the financial statement amounts. Factors to consider in identifying significant changes include likely public or congressional interest in the change; historical trends in the amount; and the relative size of the change (i.e., both the percentage change and the change compared to changes in total assets, total liabilities, net costs, revenues, obligations, outlays, or budgetary resources).

- Purpose, source, and type of significant budgetary resources, including any significant supplemental appropriations, and the relationship between any significant fees collected and the cost of goods or services provided.
- Financial management issues arising during the reporting period and key entity-specific risks to financial performance, position or condition and actions taken or planned to mitigate those risks.

For FY 2022, the MD&A should continue the FY 2021 discussion of the financial impact on the entity, if significant, of the Federal Government’s response to **coronavirus disease 2019** (COVID-19 or COVID). The discussion should focus on FY 2022, but information about FY 2021 should be included if significant amounts of COVID-related budgetary resources appropriated prior to FY 2022 were (1) expended in FY 2021 but not in FY 2022, (2) expended in FY 2022, or (3) remain at the end of FY 2022.

The COVID discussion should summarize the purpose and amount of significant COVID-related budgetary resources received in FY 2022, obligations incurred, the portion of the budgetary resources that remain available beyond FY 2022 (including a reference to the existence and purpose of any indefinite budgetary resources), and the financial and performance impact of the additional budgetary resources. Discussion and analysis of the financial impact should include the impact on assets, liabilities, costs, revenue, Funds from Dedicated Collections, net position, and other results, as appropriate. See also Note 35, COVID-19 Activity, for note disclosure requirements.

Entities with significant stewardship activities are encouraged to discuss such activities in their MD&A, consistent with respondents’ feedback in the Summary of Outreach Efforts and Responses subsection of Appendix A, Basis for Conclusions of SFFAS 57, *Omnibus Amendments 2019*.

Entities required to report a Statement of Social Insurance (SOSI) should discuss in one section of the MD&A critical measures pursuant to SFFAS 37, *Social Insurance: Additional Requirements for Management’s Discussion and Analysis and Basic Financial Statements*, paragraphs 23 through 27, and present a table or other display of key measures, similar to the illustrative table below.

Entities **not required to report a SOSI** may, at management’s discretion, present a table similar to the illustrative table below but without the social insurance rows and aggregated or disaggregated as appropriate.<sup>3</sup>

<sup>3</sup> For another illustrative table, see page 12 of the Department of Housing and Urban Development’s 2021 Financial Report, [afr2021.pdf \(hud.gov\)](#).

The MD&A should state the limitations of the financial statements using the following or similar language:

The financial statements are prepared to report the financial position, financial condition, and results of operations, consistent with the requirements of 31 U.S.C. § 3515(b). The statements are prepared from records of Federal entities in accordance with Federal generally accepted accounting principles (GAAP) and the formats prescribed by OMB. Reports used to monitor and control budgetary resources are prepared from the same records. Users of the statements are advised that the statements are for a component of the U.S. Government.

### II.2.5. MD&A Analysis of Systems, Controls, and Legal Compliance

The MD&A must summarize (1) the agency's financial management systems, including systems critical to financial reporting and financial control and (2) the agency's financial management systems improvement strategy.

In addition, the MD&A must summarize efforts to maintain compliance with applicable laws, e.g., the Antideficiency Act.

Also, the MD&A must contain Management Assurances related to the Federal Managers' Financial Integrity Act (FMFIA) (31 U.S.C. § 3512(c) and (d)) and the Federal Financial Management Improvement Act (FFMIA) (31 U.S.C. §3512 note) in either a single statement or two separate statements signed by the agency head. Under OMB Circular A-123 (Section VI, paragraph A), the

FMFIA statement must be in a section labeled “Analysis of Systems, Control, and Legal Compliance.” In addition, Circular A-123 (Section VI, paragraph E) requires that “a detailed summary of management assurances” be included in Other Information.

Illustrative assurance statements for the FMFIA can be found in OMB Circular A-123 Exhibits 1, 2, and 3 and guidance on corrective action plans can also be found in Circular A-123.

FFMIA requirements can be found in OMB Circular A-123 Appendix D, “Compliance with the Federal Financial Management Improvement Act of 1996.” For areas of FFMIA non-compliance, the agency must identify remediation activities that are planned or underway, describing target dates and offices responsible for bringing systems into compliance.

Management should review the FMFIA and FFMIA assurance statement(s) for consistency with the findings specified in the annual financial statement audit report. The auditor must compare material weaknesses disclosed during the audit with those material weaknesses reported in the agency’s FMFIA reports and report any material weaknesses disclosed by the audit that were not reported by the agency. Management and the auditor conclusions could be different. When management does not agree with the auditor, management should explain why it does not agree and must describe how the disagreement will be addressed.

For an error requiring a restatement where the agency previously asserted that it received an unmodified opinion, management should discuss the events that caused the restatement (including the error). The discussion should include the amount(s) of the material misstatement(s), the effect on the previously issued financial statements, and actions management took after discovering the misstatement. For further disclosure requirements, see Section II.3.8.31.

## **II.2.6. Forward-Looking Information**

Forward-looking information should reflect entity-specific known and anticipated risks, uncertainties, future events or conditions, and trends that could significantly affect the entity’s future financial position, condition, or operating performance and entity actions that have been planned or taken to address those challenges.

For FY 2022, significant entities should summarize any efforts taken or planned to assess, measure, and mitigate any significant climate-related risks that could affect the entity’s performance, financial position, or financial condition. The risks include risks to assets (such as property, plant, and equipment, and loan portfolios), liabilities (including loan guarantee liabilities), contingent liabilities, and program costs. The MD&A should not duplicate information reported pursuant to section II.4.10 below, but may refer the reader to that section for more information. In addition, the MD&A should be consistent with any other climate-related information reported by the entity.

## **II.3. Financial Section – AFR Section 2/PAR Section 3**

### **II.3.1. Instructions for the Annual Financial Statements**

Reporting entities must comply with GAAP for Federal entities and the requirements of this Circular. Additional guidance on recognition, measurement, and disclosure requirements can be found at [fasab.gov](https://fasab.gov).

Reporting entities must follow the hierarchy of accounting principles described in SFFAS 34, *The Hierarchy of Generally Accepted Accounting Principles, Including the Application of Standards Issued by the Financial Accounting Standards Board*. Pursuant to SFFAS 47, a reporting entity may consolidate component or sub-component reporting entity financial statements prepared in accordance with SFFAS 34 **without conversion for any difference in accounting policies among the organizations**.

Comparative financial statements are required except for the SOSI, which has different requirements (as noted in Section II.3.7), and except in cases where Treasury and OMB have approved the single-year presentation. (See Appendix B for OMB, Main Treasury, and Fiscal Service contacts.) Information for the current and prior years should be presented regardless of the type of audit opinion rendered by the auditor. Notes should contain information necessary for an understanding of changes between the current and prior years.

Accounting principles included in requirements in the remainder of section II.3 that are not specified in SFFAS 34 categories A through C, that are not presentation reporting requirements, and that are considered practices that are widely recognized and prevalent in the Federal Government may be deemed to be level D of the Federal GAAP hierarchy. Level D GAAP is reflected in the following:

- Budgetary reporting requirements, including disclosures,
- Note 38: Reclassification of Financial Statement Line Items,
- Non-Federal investments reporting requirements, including valuation and disclosures, and;
- Commitments.

Requirements that would not be considered level D GAAP include presentation requirements (such as illustrative displays), the COVID note, and the classifications of contingency disclosures.

Entities must use the same trial balance information submitted to the Government-wide Treasury Account Symbol Adjusted Trial Balance System (GTAS) as the basis for the financial statements and notes.

When entities present disaggregated information for component organizations, the total column for the entity as a whole must reflect consolidated totals net of intra-entity transactions, except for the Statement of Budgetary Resources (SBR), which is presented on a combined basis. Financial statements other than the SBR that use a multi-column format to present information on an entity's primary components, e.g., bureaus or major lines of business, and consolidated amounts are "consolidating statements." Eliminations for intra-entity transactions needed to arrive at the consolidated amounts should be presented in a column on the face of the consolidating statements. The SCNP that displays consolidated amounts for Dedicated Collections, Funds from Other than Dedicated Collections, and an eliminations column for transactions between the two types can be considered a "consolidating statement."

As stated in Note 22, the SNC should be disaggregated in certain circumstances in the notes. Entities may elect to include disaggregated statements for other primary financial statements, such as the Balance Sheet, SCNP, or Statement of Custodial Activity (SCA), and may include such disaggregated statements as OI.

See Section II.3.2.2 for a discussion of the Balance Sheet Template. Any deviations from the Template must be discussed with OMB and Treasury as soon as management determines a deviation is needed and no later than August 15<sup>th</sup>. (See Appendix B for OMB, Main Treasury, and Fiscal Service contacts.) In addition, entities deviating from the Template must complete a reclassification of the Balance Sheet, found in the TFM, as discussed in Note 38 below.

All statements other than the Balance Sheet with illustrative displays in this Circular may be modified by adding lines and using different words than those in the displays and should be modified to exclude lines, notes, and rows or columns that do not apply or are not informative. Schedule totals presented in the notes in support of amounts presented in financial statements must agree with the amounts presented in the financial statements.

Dollar amounts should be rounded to the nearest thousand dollar or million dollar based upon informative value and the rounding level maintained throughout the statements, notes, and RSI (including the MD&A). Individual line items should sum to the column totals by adjusting the line items for differences created by rounding rather than adjusting column totals.

Line numbers should not be on statements; they are used for reference purposes only. Notes should be numbered sequentially without regard to the numbers in this document. If components of agencies prepare separate audited financial statements, the statements do not need to be presented separately in consolidating entity-wide financial statements.

Agencies (other than shared service providers) with administrative and programmatic responsibility for accounts with an Agency Identifier of 011 (Executive Office of the President) must include all such accounts in their AFR or PAR.

### **Parent-Child Reporting**

An entity required by law to allocate budget authority to another Federal entity is referred to as a “parent” and the entity receiving the budget authority is referred to as the “child.” See OMB Circular A-11, Sections 20.4, 120.15, 120.29, and 130.18.

Generally, child entities report their costs to the parent for activities performed by the child and all costs are consolidated in the parent’s financial statements. However, where (1) the Executive Office of the President is the parent or (2) funds are transferred from the Judicial Branch to the Department of Justice U.S. Marshals Service for court security, the child is responsible for reporting all budgetary and proprietary activity in their financial statements and GTAS. Other than these two cases, child entities must not report any information for the allocation transfer account in their financial statements.

Except for the two cases noted above, the parent must report all budgetary and proprietary activity in its financial statements, whether material to the child or not. To do so, child entities must submit a full USSGL trial balance with attributes to the parent no later than 12 calendar days following the end of the reporting period or a date set by the parent to meet its reporting and auditing deadlines, whichever comes first.

Should a child entity need to make a change to a reported trial balance, the child must notify the parent as soon as possible. Before making any changes to the child’s trial balance, the parent

must get the child's approval.

For GTAS, the parent is responsible for determining whether the parent or child will report. Regardless of which entity reports to GTAS, budgetary information for each allocation must be reported only once.

Trading partner information must be posted to GTAS by the parent entity. When a child entity contracts with another Federal entity on behalf of the parent, the child reports the other Federal agency's trading partner code to the parent and should communicate the parent trading partner information to the other entity.

Audit coordination between parent and child will be necessary, because the child will retain all transaction details, as discussed in OMB's audit bulletin.

### **Corrections of Errors, Changes in Accounting Principles, and Changes in Presentation**

Corrections of errors (misstatements) and changes in accounting principles should be reported in accordance with SFFAS 21, *Reporting Corrections of Errors and Changes in Accounting Principles*.

Any legislative change that entities believe will result in a change in accounting principles or a change in presentation should contact OMB and Treasury to determine the proper treatment of the legislation. (See Appendix B for contact information.)

### **Corrections of Errors**

As stated in SFFAS 21, paragraph 10, errors in financial statements result from mathematical mistakes, mistakes in the application of accounting principles, and oversight or misuse of facts that existed **at the time the statements were prepared**.

When errors are discovered after the issuance of financial statements and if the financial statements would be materially misstated absent correction, corrections should be made as specified in SFFAS 21, paragraph 10.

Prior period financial statements **should only be restated for corrections of errors** that would have caused any statements to be materially misstated, as specified in SFFAS 21, paragraph 11.

### ***Error Correction Communication Requirements***

Management is responsible for providing complete and reliable information and for correcting on a timely basis any false, misleading, or incomplete information. As soon as possible after **material** errors are detected, management must notify in writing their auditors and the primary users of their financial statements of the error and plans for correction. The notification should include:

- The amount(s), nature, and cause(s) of the known or likely material misstatement(s) in previously issued financial statement(s) and the effect(s) of the correction(s) on relevant balances; and
- A statement that a previously issued financial statement(s) will or may be restated.

Primary users include the Congress, OMB, Treasury, GAO, and the public (on the website where previously issued financial statements were published).

**Error Correction Reporting Requirements**

Where the specific amount(s) of the material misstatement(s) and the related effect(s) of such misstatement(s) on previously issued financial statements are:		
<b>Known</b> and the subsequent period audited financial statements will <u>not</u> be issued within 90 days.	<b>Known</b> and the subsequent period audited financial statements will be issued within 90 days.	<b>Unknown</b> when the current year’s financial statements are issued.
<b>Reissue the most recently issued fiscal year financial statements</b> before issuing the current fiscal year’s financial statements. Communicate the reissuance to those charged with governance, oversight bodies, funding agencies, and others who are relying on or are likely to rely on the financial statements.	<b>Restate financial statements as part of the current year’s comparative financial statements</b> and label the prior year comparative column as “Restated” for each statement and note affected by the correction.	<b>Make the required notifications</b> and state that (1) the amounts are not known and cannot be determined without further investigation and (2) once the amounts are known, the statements will be reissued or restated, as appropriate.
Refer to Note 31 Restatements for disclosure requirements.		

**Changes in Accounting Principles**

Changes in accounting principles include those resulting from the adoption of new FASAB standards and changes from one generally accepted accounting principle to another one that can be justified as preferable. In addition, under this Circular, changes in budgetary accounting, including the effects of certain statutory changes on budgetary accounting, would generally be considered changes in accounting principles, but, as noted above, entities with such statutory changes should contact OMB and Treasury to discuss their presentation.<sup>4</sup>

Depending on the specified accounting change, the implementation may be prospective or retrospective. FASAB (SFFAS 21, paragraph 13) establishes that all changes in FASAB standards must be applied prospectively unless otherwise specified in the transition instructions.<sup>5</sup> Changes in budgetary accounting must be implemented either prospectively or retrospectively, depending on the specific guidance related to the change.

For prospective changes in accounting principles, agencies should:

- Report the change by recording and presenting an adjustment to the beginning balance of cumulative results of operations in the SCNP for the period that the change is made;
- Present prior period financial statements presented for comparative purposes as previously reported; and
- Disclose in the current period the nature of the change in accounting principle and its effect on relevant balances.

For retrospective changes in accounting principles, agencies should:

- Report the cumulative effect of the change as a prior period adjustment in the current year if only current period statements are presented. The adjustment should be made, as applicable, to the beginning balance of cumulative results of operations

<sup>4</sup> Changes that are limited to changes in the presentation format of the Statement of Budgetary Resources generally would not be considered to be a change in accounting principle and would instead generally be deemed to be a change in presentation.

<sup>5</sup> Changes in accounting principles by an agency’s component entity using FASB standards that is not converted to FASAB standards in consolidation should be recognized by the agency, as it relates to the component entity, as a change in accounting principle consistent with the requirements of FASB standards.

and/or unexpended appropriations in the SCNP and to the beginning unobligated balance from prior year budget authority in the SBR.

- Modify individual amounts on the financial statements in the earliest affected period presented. If the earliest period presented is not the period in which the change in accounting principle is retrospectively applied and the cumulative effect is attributable to prior periods, then the cumulative effect should be reported as a prior period adjustment in the earliest period, similar to the previous bullet.
- Disclose the nature of the change in accounting principle and its effect on previously issued financial statements and relevant balances.

### **Changes in Presentation**

Changes to prior year financial statements (including notes) presented in the current year comparative financial statements that are made to conform to the current year presentation and that are not the result of a correction of an error or a change in accounting principle are generally changes in presentation. These include changes in aggregation of line items, such as other assets or other liabilities, reclassification changes for components of line items, and changes in presentation under this circular. Describe any significant change in presentation in Note 1.

## **II.3.2. Balance Sheet**

### ***II.3.2.1. Introduction***

The Balance Sheet may be displayed as in Section II.3.2.2 with a two-column format showing the current and prior periods or using separate columns for entity components, e.g., bureaus or major lines of business.

Combine on the face of the Balance Sheet entity and non-entity assets except for non-entity assets meeting the definition of fiduciary assets and combine liabilities covered by budgetary resources, liabilities not covered by budgetary resources, and liabilities not requiring the use of budgetary resources. Disclose in the notes non-entity assets, if material; non-entity assets meeting the definition of fiduciary assets; and liabilities not covered by budgetary resources.

The portion of cumulative results of operations and unexpended appropriations attributable to Funds from Dedicated Collections must, if material, be shown separately on a **consolidated basis** on the Balance Sheet (and must match the consolidated amounts in Note 21). This consolidated reporting requires that transactions among Funds from Dedicated Collections be eliminated. Similarly, balances and transactions among Funds from Other than Dedicated Collections must be eliminated. The totals for the elimination lines 41.3 and 42.3 on the Balance Sheet Template below are generally expected to be zero.

For FY 2022, entities are encouraged to present the FY 2021 components of net position on a consolidated basis.

SFFAS 31, *Accounting for Fiduciary Activities*, provides that deposit funds that meet the definition of fiduciary activities (and that are not excluded by paragraph 13 of SFFAS 31) should not be included on the face of the financial statements and should instead be disclosed; all other deposit funds should be reported on the Balance Sheet.

### ***II.3.2.2. Balance Sheet Template***

Entities must use the asset and liability line titles on the numbered lines shown in the Template below. If a line title is not applicable to an entity, the line title should not be used. If a line title is immaterial to an entity, the entity must do one of the following: (1) use the numbered line title with the immaterial amount presented, (2) present the immaterial amount in the numbered line title as a discrete component under Other Assets or Other Liabilities, or (3) disclose the amount for the numbered line title under Other Assets or Other Liabilities. Line titles for Cash and Other Monetary Assets and Federal Employee and Veteran Benefits Payable, which are marked with an asterisk (\*) in the Template, may be modified to delete portions that are not applicable.

An entity may disaggregate a required line title into two or more entity-specific line titles. The detail must sum to the total that would otherwise be required for the numbered line item. See the unnumbered line detail under Line 9, “Accounts receivable, net;” Line 17, “Other Assets;” and Line 37, “Other Liabilities;” as examples.

Subtotal lines for numbered lines may be added where detail lines are used and, if added, must be placed underneath the detail lines.

Line 37, Other Liabilities, includes amounts recognized as probable contingencies in accordance with SFFAS 5, *Accounting for Liabilities of the Federal Government*, paragraphs 38-39. Line 40, Commitments and Contingencies, should not contain amounts and is included only as a heading to direct readers to the applicable Note (Note 20) to find information required by paragraphs 39-41 of SFFAS 5, and information about commitments not reported elsewhere.

Entities should use “other than intragovernmental” to refer to amounts that are not intragovernmental (as defined in section II.3.2.3 and II.3.2.4), but may use “with the public.”

### **II.3.2.3. Assets**

#### **General Categories.**

**Entity Assets** are assets that the reporting entity has authority to use in its operations. Management may have authority to decide how funds are used or it may be legally obligated to use the funds a certain way, e.g., to repay loans from Treasury.

**Non-Entity Assets** are assets held by an entity that are not available to the entity, e.g., income tax receivables that the Internal Revenue Service collects but has no authority to spend.

Combine entity and non-entity assets, except for non-entity assets meeting the definition of fiduciary assets on the face of the Balance Sheet. Disclose non-entity assets (Note 2) and non-entity assets meeting the definition of fiduciary assets (Note 31).

**Intragovernmental Assets** arise from transactions between the reporting entity and other consolidation entities and are claims of one such entity against another such entity. Intragovernmental assets are eliminated in the U. S. Government's consolidated financial statements. Intragovernmental assets (or intra-entity assets) also arise from transactions between components of a consolidation (or reporting) entity and are eliminated in the consolidation (or reporting) entity's financial statements. Report intragovernmental assets separately from assets associated with the Federal Reserve, Government-sponsored enterprises, and other entities not considered to be consolidation entities (which would include organizations and individuals considered to be a part of the general public).

**Fund Balance with Treasury (FBWT)** is the amount in the entity's accounts with Treasury that is available for making expenditures and paying liabilities; it includes balances held by the entity on behalf of the Government or other entities (receipt accounts, which include clearing/suspense accounts). It includes general funds, revolving funds, special funds, trust funds, deposit funds, clearing accounts, miscellaneous receipt accounts, and the dollar equivalent of certain foreign currency account balances. See SFFAS 1, *Accounting for Selected Assets and Liabilities*, paragraph 31.

FBWT meeting the definition of fiduciary FBWT should not be recognized on the Balance Sheet, but should be disclosed in accordance with the provisions of SFFAS 31.

In most cases, non-fiduciary deposit funds should be reported as "intragovernmental." Examples include deposit funds that are used to hold unpaid payroll withholdings, unearned revenues, and certain collections that may be distributed to non-Federal parties after further research or legal or agency judgment. Entities with non-fiduciary deposit funds that appear to be controlled by non-federal entities should contact Fiscal Service and OMB for further reporting instructions. (See Appendix B for contact information.) Balances held in non-fiduciary deposit funds that are held by the Government on behalf of non-federal entities or individuals should also be presented as a liability and disclosed as non-entity assets. See FASAB's Interpretation 10, *Clarification of Non-Entity FBWT Classification (SFFAS 1, Paragraph 31): An Interpretation of SFFAS 1 and SFFAS 31*.

The FBWT should match the sum of the balances reflected on the Central Accounting Reporting System (CARS) Account Statement for the entity's Treasury Account Symbols. An adjustment will need to be made for available receipts appropriated/credited to the related expenditure accounts since the balances will appear in both the receipt ledger and the expenditure account.

The FBWT includes amounts deposited in a Treasury Account Symbol for which the entity has a confirmed deposit ticket. Deposits made but not confirmed and deposits that have been confirmed but not yet been recorded in CARS should be recorded as Undeposited Collections and reported on the Balance Sheet in Cash and Other Monetary Assets. Disbursements not confirmed by the last day of the month should not reduce the FBWT or be considered an outlay until the payments are processed; they should be reported as Disbursements in Transit. For additional information, see TFM Vol. 1, Part 2, Chapter 3400.

The proper reporting of intragovernmental transactions at fiscal year-end can be found in TFM Volume I, Part 2, Chapter 4700.

Treasury requires that agencies reconcile their FBWT accounts monthly to ensure the integrity of Government-wide *Financial Report* data.

**Cash and Other Monetary Assets** consist of cash, which includes: (i) coins, paper currency and readily negotiable instruments, such as money orders, checks, and bank drafts on hand or in transit for deposit; (ii) amounts on demand deposit with banks or other financial institutions including non-confirmed collections and disbursements; and (iii) foreign currencies, which will be converted into U.S. dollars at the exchange rate on the financial statement date.

Other monetary assets include gold, special drawing rights, U.S. Reserves in the International Monetary Fund, deposits made but not confirmed, and confirmed deposits that have not yet been recorded in CARS. Cash and other monetary assets the reporting entity holds and is authorized to use is "entity" cash and other monetary assets as distinct from cash and other monetary assets a Federal entity collects and holds on behalf of the Government or other entities, which should be referred to as "non-entity" cash and other monetary assets. The components of cash and other monetary assets must be disclosed (Note 4).

**Advances and Prepayments.** Advances are cash outlays made by a Federal entity to its employees, contractors, grantees, or others to cover a part or all of the recipients' anticipated expenses or as advance payments for the costs of goods and services the entity receives. Prepayments are payments made by a Federal entity to cover certain periodic expenses before those expenses are incurred. Financing payments (such as progress payments, performance-based payments, etc.) on work in process are generally recognized as a cost for work performed and not included in advances and prepayments.

**Investments, Net** include investments in Federal and non-federal entities; non-federal securities must be reported separately from Federal securities.

Federal securities include non-marketable par value Treasury securities, market-based Treasury securities, marketable Treasury securities (which can be exchanged on the open market), and securities issued by other Federal entities.

Federal securities are reported at acquisition cost or amortized acquisition cost (less an allowance for losses, if any), except when there is an intent to sell prior to maturity or there is a reduction in value that is more than temporary, in which case market value should be used (except for pension and retirement plans). See SFFAS 1, paragraphs 68-73. To derive market value, group investments by type of security (e.g., marketable or market-based securities) and multiply the market price as of the reporting date by the number of securities held as of the reporting date. Investments in Federal securities made through the secondary market are considered Federal securities.

Non-federal investments may include securities issued by State and local governments, and private corporations; investments in money market and mutual funds even if the fund assets consist entirely of Federal securities; and investments in equity securities.

Disclose the components of investments, including the market value of market-based and marketable Treasury securities, investments for Funds from Dedicated Collections, and other information required for non-federal investments (Note 5).

For investments in non-federal securities, consult Accounting Standards Codifications (ASC) 320, 321, 323, 325, and 820, but do not apply such guidance to non-federal securities that are accounted for under SFFAS 2, *Accounting for Direct Loans and Loan Guarantees*.

**Investments in Special Purpose Vehicles** are Treasury's investments in special purpose vehicles established by the Federal Reserve Board through the Federal Reserve Bank of New York and the Federal Reserve Bank of Boston for the purpose of enhancing the liquidity of the U.S. financial system in response to the COVID-19 pandemic.

**Investments in Government-Sponsored Enterprises** are Treasury's investments in the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation.

**Accounts Receivable, Net** are Federal entity claims for payment from other (Federal or non-federal) entities. Gross receivables must be reduced to net realizable value by an allowance for doubtful accounts in accordance with SFFAS 1 and Technical Bulletin 2020-1, *Loss Allowance for Intragovernmental Receivables*. Loss allowance recognition for intragovernmental receivables does not alter the statutory requirements for the debtor agency to make the payment or for the collecting agency to seek and obtain payment. Entities should document their policies regarding allowances and criteria for assessing collectability and disclose the method(s) of calculating the allowance for doubtful accounts and the dollar amount of the allowance (Note 6).

**Taxes Receivable, Net** are Federal entity claims for taxes owed by the public. Gross receivables must be reduced to net realizable value by an allowance for uncollectible taxes receivable. Disclose the method(s) of calculating the allowance for uncollectible taxes and the dollar amount of the allowance (Note 7).

**Interest Receivable, Net** is interest income earned but not received as of the reporting date. Report interest receivable as a component of the appropriate asset account. No interest will be recognized as revenue on accounts receivable or investments that are determined to be uncollectible until the interest is collected. Accrued interest on uncollectible accounts

receivable, however, must be disclosed until the requirement to pay interest is waived by the Government or the related bad debt is written off.

Interest receivable related to pre-1992 and post-1991 direct loans and acquired defaulted guaranteed loans must be reported as a component of loans receivable and related foreclosed property.

**Loans Receivable, Net** are the net value of credit program receivables and related foreclosed property and are considered entity assets if the entity has the authority to determine the use of the funds collected or if the entity is obligated to use the funds to meet its obligations, e.g., loans payable to Treasury. Disclose the components of this line (Note 8).

**Receivable from Borrowings.** When a loan guarantee program that is generating negative subsidy guarantees a loan and the lender has not disbursed the loan as of the Balance Sheet date, a proprietary receivable from borrowings may not be reported. Report the undelivered order, which is recorded to obligate the funds, and the borrowing authority or unobligated balances to support the undelivered order.

**Negative Subsidies and Downward Reestimates of Subsidy.** General fund receipt accounts for negative subsidies and downward subsidy reestimates are to be included in the reporting entity's financial statements. Any FBWT amounts in the accounts are non-entity assets and are offset by intragovernmental liabilities covered by budgetary resources.

**Inventory and Related Property, Net.** See SFFAS 3, *Accounting for Inventory and Related Property*, as amended; Federal Financial Accounting Standards Interpretation 7, *Items Held for Remanufacture*; and Federal Financial Accounting and Auditing Technical Release (TR) 4 *Reporting on Non-Valued Seized and Forfeited Property* for definitions and recognition requirements for inventory, operating materials and supplies, stockpile materials, seized property, forfeited property, goods held under price support and stabilization programs.

For seized property, only monetary instruments will be recognized; real property and tangible personal property will not be recognized. Seized monetary instruments will be recognized as Seized Assets when seized and a liability will be recognized in Other Liabilities equal to the value of the seized monetary instrument. The Other Liability for a seized monetary instrument will be removed, revenue will be recognized, and the Seized Asset will be reclassified as a Forfeited Asset if a forfeiture judgment is obtained. See SFFAS 3, paragraphs 60-65, and 69.

Forfeited intangible assets will be recognized at fair market value at the time of forfeiture along with an offsetting deferred revenue. See SFFAS 3, paragraphs 70-72.

Entities with seized or forfeited cryptocurrency should contact Treasury and OMB to discuss reporting requirements.<sup>6</sup> (See Appendix B for contact information.)

---

<sup>6</sup> Among other things, SFFAS 3 provides recognition criteria and valuation requirements for seized monetary instruments, forfeited monetary instruments, and forfeited intangible property, but FASAB standards do not define cryptocurrency, provide recognition criteria or valuation requirements specifically for cryptocurrency, or specify whether cryptocurrency is a monetary instrument, intangible property, or some other type of asset.

See Note 9 for disclosure requirements.

**General Property, Plant and Equipment (PP&E), Net.**

See SFFAS 6, *Accounting for PP&E*, paragraphs 17-20 and 23-34 and paragraphs 40-44 and SFFAS 29, *Heritage Assets and Stewardship Land*, paragraphs 15-24 for definitions and recognition requirements for PP&E and heritage assets and stewardship land, respectively. See SFFAS 6, paragraphs 35-39 for recognition requirements for accumulated depreciation and disposal, retirement, and removal of PP&E from service. See Notes 10 and 11 for disclosure requirements.

See SFFAS 10, *Accounting for Internal Use Software*, paragraphs 8-34 and 36 and FASAB Technical Release (TR) 16 *Implementation Guidance for Internal Use Software*, for definitions and recognition requirements (including impairment loss requirements) for internal use software.

See SFFAS 44, *Accounting for Impairment of General Property, Plant, and Equipment Remaining in Use*, paragraphs 8-25 for definitions and recognition requirements for impairment losses for PP&E other than internal use software.

**Stewardship PP&E.** Entities must report on the existence of heritage assets and stewardship land.

**Heritage Assets** are PP&E that are unique because of (1) historical or natural significance, (2) cultural, educational, or artistic importance, or (3) significant architectural characteristics. Heritage assets consist of (1) collection type assets (e.g., objects gathered and maintained for exhibition) and (2) non-collection-type assets (e.g., parks, memorials, monuments, and buildings). Heritage assets are generally expected to be preserved indefinitely.

**Stewardship Land** includes land and land rights owned by the Government, but not acquired for or in connection with items of general PP&E (e.g., forests, parks, and land used for wildlife and grazing).

Under SFFAS 29, heritage asset and stewardship land information is classified as basic information, requiring the Balance Sheet to include a reference to a note that discloses non-financial information. See Note 11.

**Other Assets.** "Other" assets are assets not recognized in any previous category and may include assets described in previous categories that are immaterial to the entity. Other assets also include general PP&E assets that are no longer operational, but have not yet been disposed of or removed from service. Reporting entities should disclose in the notes the amount and nature of categories of other assets (Note 12). See SFFAS 6, paragraphs 38 and 39 and TR 14 paragraphs 7 through 10 for further information. Other assets, including immaterial amounts, must be reported in GTAS using the correct USSGL for the asset category.

#### **II.3.2.4. Liabilities**

**General Categories.** Financial statements must recognize probable and measurable future outflows or other sacrifices of resources arising from: (1) past exchange transactions, (2) government-related events, (3) government-acknowledged events, or (4) non-exchange transactions that, according to current law and applicable policy, are unpaid amounts due as of the

reporting date. SFFAS 5, describes the general principles governing the recognition of a liability.

Liabilities must be recognized when they are incurred regardless of whether they are covered by available budgetary resources, including liabilities related to canceled appropriations.

Liabilities are classified as liabilities covered by budgetary resources, liabilities not covered by budgetary resources, and liabilities not requiring budgetary resources.

***Liabilities Covered by Budgetary Resources*** include liabilities incurred that are covered by realized budgetary resources as of the Balance Sheet date. Budgetary resources include: (1) new budget authority, (2) unobligated balances of budgetary resources at the beginning of the year or net transfers of prior year balances during the year, (3) spending authority from offsetting collections (credited to an appropriation or fund account), and (4) recoveries of unexpired budget authority through downward adjustments of prior year obligations. Also include in liabilities covered by budgetary resources liabilities that are to be funded by permanent indefinite appropriations and may be apportioned by OMB without further action by the Congress and without a contingency having to be met first. See Treasury's USSGL Approved Scenarios at: <https://www.fiscal.treasury.gov/ussgl/resources-implementation.html>.

***Liabilities Not Covered by Budgetary Resources*** are liabilities that will require budgetary resources.

***Liabilities Not Requiring Budgetary Resources*** are liabilities that will not require the use of budgetary resources, e.g., liabilities for clearing accounts, non-fiduciary deposit funds, custodial collections, and unearned revenue.

Aggregate all liabilities of the same type on the face of the Balance Sheet, e.g., intragovernmental accounts payable covered by budgetary resources and intragovernmental accounts payable not covered by budgetary resources should be aggregated and reported as a single intragovernmental accounts payable line item on the face of the Balance Sheet. Disclose liabilities not covered by budgetary resources (Note 13).

**Intragovernmental Liabilities** arise from transactions between the reporting entity and other consolidation entities and are claims of one such entity against another such entity. Intragovernmental liabilities are eliminated in the U.S. Government's consolidated financial statements. Intragovernmental liabilities (or intra-entity liabilities) also arise from transactions between components of a consolidation (or reporting) entity and are eliminated in the consolidation (or reporting) entity's financial statements. Report intragovernmental liabilities separately from claims against the entity by the Federal Reserve, Government-sponsored enterprises, and other entities not considered to be consolidation entities (which would include organizations and individuals considered to be a part of the general public).

**Accounts Payable** are amounts owed for goods and services received from other entities, progress in contract performance made by other entities, and rents due to other entities.

**Federal Debt and Interest Payable** is the amount borrowed by an entity that has the authority to issue securities to Government accounts or the public. The components of Federal debt and interest payable must be disclosed (Note 14A).

**Debt** is the intragovernmental amount borrowed by reporting entities that do not have the authority to issue securities. The components of debt must be disclosed (Note 14B).

**Interest Payable** is interest incurred but unpaid on liabilities and should be reported as a component of the appropriate liability accounts.

**Federal Employee [and Veteran] Benefits Payable (FEVBP).** Entities responsible for accounting for pensions, other retirement benefits (ORB) (e.g., health benefits for retirees), and other post-employment benefits (OPEB) should calculate and report these liabilities and related expenses in accordance with SFFAS 5. Liabilities for Federal employee and veteran benefits include the actuarial portion of these benefits and unfunded accrued annual leave, but not the liabilities related to employee funded accrued salary or annual leave, which are reported in Other Liabilities. Disclose in the notes the actuarial liabilities, assumptions used to compute the actuarial liabilities, assets, and the components of expense for the period for pensions, ORB, and OPEB (Note 15). For FY 2023, both accrued funded payroll and leave and unfunded accrued annual leave will be reported in FEVBP.

**Environmental and Disposal Liabilities.** SFFAS 5 provides criteria for recognizing a contingent liability, which will be applied to determine if cleanup costs should be recognized or disclosed. SFFAS 6 provides guidance for recording cleanup costs related to general PP&E and stewardship PP&E used in Federal operations and applies to cleanup costs from Federal operations known to result in hazardous waste that the Federal Government is required by Federal, State or local statutes or regulations to clean up. This line item includes both non-legal contingent and non-contingent environmental and disposal liabilities. Contingent liabilities related to litigation and reported in the agency legal letter and/or on the management schedule, including environmental and disposal related litigation, are reported in the Other Liabilities line item.

Depending on materiality, the liability for cleanup costs may be displayed separately or included with other liabilities. See SFFAS 6 for disclosures (Note 16).

Technical Bulletin 2006-1, *Recognition and Measurement of Asbestos-Related Cleanup Costs*, requires the recognition of a liability and expense for friable and non-friable asbestos cleanup costs when the amounts are probable and reasonably estimable, consistent with SFFAS 5, SFFAS 6, and TR 2, *Determining Probable and Reasonably Estimable for Environmental Liabilities in the Federal Government*. Liabilities deemed probable, but not reasonably estimable, should be disclosed (Note 16).

TR 10, *Implementation Guidance on Asbestos Cleanup Costs Associated with Facilities and Installed Equipment*, addresses implementation questions and clarifies requirements regarding the application of Technical Bulletin 2006-1. TR 11, *Implementation Guidance on Cleanup Costs Associated with Equipment*, addresses when cleanup costs should be recognized as an environmental liability and when they should be expensed.

Interpretation 9, *Cleanup Cost Liabilities Involving Multiple Component Reporting Entities: An Interpretation of SFFAS 5 and SFFAS 6*, clarifies guidance regarding cleanup cost liabilities when the component entity responsible for reporting an asset during its useful life is different from the component entity responsible for settling the liability for the cleanup cost of the asset.

**Benefits Due and Payable** are amounts owed to program recipients or medical service providers as of the Balance Sheet date that have not been paid and include payables for benefits, goods, or services under the terms of a benefits program (other than Federal employee and veteran benefits programs) whether or not such amounts have been reported to the Federal entity (e.g., estimated payments due to health providers for services that have been rendered but not yet reported to the Federal entity). Benefit programs reported on this line item include Federal Old-Age and Survivors Insurance, Federal Hospital Insurance (Medicare Part A), Federal Supplementary Medical Insurance (Medicare Parts B and D), Grants to States for Medicaid, Federal Disability Insurance, Supplemental Security Income, Railroad Retirement, Unemployment Insurance, and Black Lung.

**Loan Guarantee Liabilities.** For post-1991 loan guarantees, this is the present value of the estimated net cash flows to be paid as a result of loan guarantees. For pre-1992 loan guarantees, this is the amount of known and estimated losses payable. Disclose the components of the line (Note 8).

**Negative Loan Guarantee Liability.** When the net loan guarantee liability for all credit programs of a reporting entity is negative, it should be reported as an asset. Disclose the components of the line (Note 8).

**Liability to Government Sponsored Enterprises** is the amount of future draws by the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation deemed probable and reasonably estimable under the terms of the Senior Preferred Stock Purchase Agreements.

**Insurance and Guarantee Program Liabilities** exclude social insurance, loan guarantee programs, and life insurance.

SFFAS 51, *Insurance Programs*, identifies three categories of insurance programs: exchange transaction insurance programs other than life insurance, non-exchange transaction insurance programs, and life insurance programs. For exchange transaction programs other than life insurance, liabilities must be reported for unearned premiums, unpaid insurance claims, and losses on remaining coverage as specified in SFFAS 51, paragraphs 25-37. For non-exchange transactions, liabilities must be reported for unpaid insurance claims as specified in SFFAS 51, paragraphs 45-48. For life insurance, liabilities must be reported for unpaid insurance claims and future policy benefits as specified in SFFAS 51, paragraphs 55-64.

Insurance and guarantee program liabilities should be reported as a separate line item if material and as a component of other liabilities if immaterial. Disclose insurance and guarantee program liabilities (Note 35) and disclose life insurance liabilities in the Federal Employee and Veteran Benefits note (Note 15).

**Advances from others and deferred revenue** are amounts received for goods or services to be delivered or performed in the future and reflect amounts that have yet to be earned.

**Other Liabilities** are liabilities not recognized in any previous category and may include liabilities described in previous categories that are immaterial to the entity. This may include liabilities related to grants payable, capital leases, Treasury-managed benefit programs, probable legal and other

contingent liabilities,<sup>7</sup> accrued liabilities related to ongoing continuous expenses (such as Federal employee salaries, funded accrued employee annual leave, accrued leave in a voluntary leave bank program), non-fiduciary deposit funds, undeposited collections, and the allocation of special drawing rights made by the International Monetary Fund. Other liabilities, including immaterial amounts, must be reported in GTAS using the correct USSGL for the liability category. For FY 2023, both funded and unfunded accrued employee annual leave will be reported in FEVBP.

Separate line items for other liabilities are appropriate if the amounts are material to the Balance Sheet. For intragovernmental other liabilities, entities may use the USSGL crosswalk titles or they may use their own line titles. For other than intragovernmental other liabilities, the separate lines should include only those USSGL account numbers shown in the USSGL crosswalk in the TFM. (See Note 38 for a hyperlink to the crosswalk.) Items not separately reported must be disclosed along with any additional information necessary to understand the liabilities (Note 18).

**Lease Liabilities.** SFFAS 5 and SFFAS 6 provide liability criteria and recognition guidance for capital leases. Report the lease liability as a component of Other liabilities and disclose the components of and other information about the capital lease liability in the notes (Note 19).

SFFAS 58, *Deferral of the Effective Date of SFFAS 54, Leases*, defers until FY 2024 the effective date of SFFAS 54, *Leases*; earlier implementation is not permitted.

Entities should begin compiling an inventory of all leases as defined in SFFAS 54 and capturing the data elements necessary for the successful implementation of the associated recognition, measurement, and disclosure requirements. For more information, see SFFAS 60, *Omnibus Amendments 2021: Leases-Related Topics* and Technical Release 20, *Implementation Guidance for Leases*.

**Commitments and Contingencies.** Commitments reflect binding agreements that may result in the future expenditure of financial resources that are not recognized or not fully recognized on the Balance Sheet and should be disclosed (Note 20).

A loss contingency is an existing condition, situation, or set of circumstances involving uncertainty as to possible loss to an entity that will ultimately be resolved when a future event occurs or fails to occur. A contingent liability should be recorded when a past event or exchange transaction has occurred, a future outflow or other sacrifice of resources is probable, and the future outflow or sacrifice of resources is measurable.

Contingencies that do not meet all three of the conditions for liability recognition, but for which there is at least a reasonable possibility that a loss or an additional loss may have been incurred, should be disclosed (Note 20).

The contingent liability for pending or threatened litigation and unasserted claims is recognized when the future outflow or other sacrifice of resources is “likely to occur” (as provided in SFFAS

---

<sup>7</sup> Non-legal contingent environmental and disposable liabilities should be included within the Environmental and Disposal Liabilities line item and not within the Other Liabilities line item. “Legal” refers to those contingencies and contingent liabilities that are reported in the legal letter and/or management schedule whereas “non-legal” refers to those contingencies and contingent liabilities that are not included in the legal letter or management schedule.

12, *Recognition of Contingent Liabilities Arising from Litigation: An Amendment of SFFAS 5*); the other criteria for recording a contingent liability are consistent with criteria for other contingencies.

If a contingency exists for cleanup costs related to stewardship PP&E, probable and measurable liabilities will be recognized when the stewardship PP&E is placed in service. (See SFFAS 5; SFFAS 6; and TR 2, *Determining Probable and Reasonably Estimable for Environmental Liabilities in the Federal Government*.)

Examples of claims or other contingencies include: (1) indemnity agreements (reimbursements due to licensees or contractors for losses incurred in support of Federal activities), (2) claims against the Federal Government that are in judicial proceedings, (3) the unfunded portion of total liabilities to international organizations, (4) litigation addressing claims for equity relief or non-monetary judgments (lawsuits where claimants are seeking specific actions by a Federal agency), and (5) other legal claims that may derive from treaties or international agreements.

### ***II.3.2.5. Net Position***

The components of net position are classified as follows:

**Unexpended Appropriations** include the portion of the entity's appropriations represented by undelivered orders and unobligated balances. Unexpended appropriations on the Balance Sheet must equal unexpended appropriations on the SCNP. Unexpended appropriations attributable to Funds from Dedicated Collections, if material, should be shown separately on the face of the Balance Sheet and should equal unexpended appropriations in the notes (Note 21). As noted above, the total unexpended appropriations eliminations between Funds from Dedicated Collections and Funds from Other than Dedicated Collections should be zero.

**Cumulative Results of Operations** reflect the net results of operations since inception plus the cumulative amount of prior-period adjustments. This includes the cumulative amount of donations and transfers of assets in and out without reimbursement. Cumulative results of operations on the Balance Sheet should equal cumulative results of operations on the SCNP. Cumulative results of operations attributable to Funds from Dedicated Collections, if material, should be shown separately on the face of the Balance Sheet and should equal the cumulative results of operations in the Funds from Dedicated Collections Note, in accordance with SFFAS 27, *Identifying and Reporting Funds from Dedicated Collections*, as amended (Note 21). As noted above, the total cumulative results of operations eliminations between Funds from Dedicated Collections and Funds from Other than Dedicated Collections should be zero.

## **II.3.3. Statement of Net Cost**

### ***II.3.3.1. Introduction***

#### **Major Programs**

The SNC should show the net cost of operations as a whole and by “major” programs as defined by the entity. Programs not deemed “major” should be grouped together.

If required, supporting schedules should be disclosed in the notes and displayed by suborganizations and corresponding programs. The program structure should report “full costs,” defined below, and related exchange revenue for each program as defined by the entity (Note 22).

See SFFAS 33, *Pensions, Other Retirement Benefits, and Other Postemployment Benefits: Reporting the Gains and Losses from Changes in Assumptions and Selecting Discount Rates and Valuation*, paragraphs 19-25, for reporting requirements for gains and losses associated with changes in long-term assumptions for employee pensions, ORB, and OPEB, including veterans' compensation.

### **Components of Net Cost of Operations**

The SNC should include: (1) gross program costs, (2) related exchange revenue, (3) the excess of costs over exchange revenues (net program costs), (4) gain/loss on pension, ORB, or OPEB assumption changes, (5) any costs that cannot be assigned to specific programs or outputs, and (6) exchange revenues that cannot be attributed to specific programs and outputs.

### **Inter-Entity Cost**

"Full cost" includes costs of goods and services provided by other entities whether or not the providing entity is fully reimbursed. The provider of goods or services is responsible for providing receiving entities its full cost information. Recognition of inter-entity costs (as defined by FASAB's Appendix E: Consolidated Glossary) not fully reimbursed is limited to material items that: (1) are significant to the receiving entity, (2) form an integral or necessary part of the receiving entity's output, and (3) can be identified or matched to the receiving entity with reasonable precision. Broad and general support services provided by an entity to all or most other entities generally are not recognized unless the services are a vital and integral part of the operations or output of the receiving entity. See SFFAS 4, *Managerial Cost Accounting Standards and Concepts*, paragraph 89 and the preamble to paragraph 105.

Under SFFAS 4, as amended, reporting entities are to recognize the full cost of goods and services received from other entities for business type activities. In addition, for non-business type activities, reporting entities must recognize imputed inter-entity costs for personnel benefits, Treasury Judgment Fund settlements, and any other costs specified by OMB.

The accompanying notes are an integral part of these statements.

### II.3.3.3. Gross Program Costs

Full cost should be reported and consists of: (a) direct and indirect costs, and (b) the costs of identifiable supporting services provided by other programs within the entity and by other entities. The entity should accumulate and assign costs in accordance with the costing methodology in SFFAS 4, as amended. Costs should include any non-production costs that can be assigned to the program.

Program costs include the costs of services provided by other entities whether or not the providing entity is fully reimbursed. See the discussion of “full cost” in section II.3.3.1; program cost reporting should be consistent with cost recognition.

Unreimbursed costs that entities are required to recognize include: (1) employees’ pension and post-retirement health and life insurance benefits, (2) OPEB for retired, terminated, and inactive employees, which include unemployment and workers compensation under the Federal Employees' Compensation Act, and (3) losses in litigation proceedings (addressed in FASAB Interpretation 2, *Accounting for Treasury Judgment Fund Transactions*). For employee benefits, the imputed cost is the difference between employer and employee contributions and the total cost of the benefit.

In accounting for partially or completely unreimbursed inter- or intra-entity costs, entities should refer to SFFAS 4; SFFAS 5; SFFAS 55, *Amending Inter-entity Cost Provisions*; Interpretation 2; and/or the USSGL. For inter-entity costs, reporting entities should also consult with the funding and administering agencies, such as the Office of Personnel Management (OPM).

Costs related to the production of outputs are reported separately from non-production costs. In addition, the costs of stewardship PP&E, listed below, are reported separately from other non-production costs:

- The cost of acquiring, constructing, improving, reconstructing, or renovating heritage assets other than multi-use heritage assets and
- The cost of acquiring stewardship land.

Entities should consider differentiating other significant (i.e., large or unique) costs if doing so improves the usefulness of the statements. For example, when reporting on a program that makes transfer payments, it may be useful to differentiate between the transfer payments and administrative costs.

#### ***II.3.3.4. Earned Revenues***

Earned or exchange revenues arise when an entity provides goods or services to the public or another Government entity for a price. The full amount of exchange revenue is reported on the SNC, regardless of whether the entity is permitted to retain the revenues in whole or in part. Any portion of exchange revenue that cannot be retained by the agency is reported as a transfer out on the SCNP. See SFFAS 7, *Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting*.

Earned revenues should be deducted from gross cost to determine net cost of each program. The attribution of earned revenues requires the exercise of managerial judgment. The SNC should show whether earned revenues are sufficient to cover the costs incurred to produce the goods or services provided.

Earned revenues for insurance programs must be reported pursuant to SFFAS 51. Exchange transaction insurance programs other than life insurance must recognize premiums as revenue when earned; life insurance programs must report earned revenue for premiums when due from policyholders. Non-exchange transaction insurance programs should apply general revenue recognition standards as found in SFFAS 7, as amended.

#### ***II.3.3.5. Net Program Costs***

This is the difference between a program's gross costs and its related earned revenues. If a program does not have earned revenue, gross and net program costs are the same and can be referred to as "total" program costs.

#### ***II.3.3.6. (Gain)/Loss on Pension, ORB, or OPEB Assumption Changes***

Entities reporting liabilities for Federal civilian and military employee pensions, ORB, and OPEB, including veterans' compensation, should report on a separate line gains and losses from changes in long-term assumptions used to measure program liabilities. For further guidance, see SFFAS 33.

### ***II.3.3.7. Costs Not Assigned to Programs***

An entity and its suborganizations may incur: (a) high-level general management and administrative support costs that cannot be directly traced, assigned on a cause-and-effect basis, or reasonably allocated to a program and (b) non-production costs that cannot be assigned to a particular program. These costs are part of the entity and suborganization costs and should be reported on the SNC as "costs not assigned to programs."

### ***II.3.3.8. Earned Revenues Not Attributed to Programs***

Earned revenue that is immaterial or cannot or should not be attributed to particular programs should be reported separately as a deduction in arriving at net cost of operations of the suborganization or entity as a whole.

### ***II.3.3.9. Net Cost of Operations***

This is gross cost less any earned revenue.

## **II.3.4. Statement of Changes in Net Position**

### ***II.3.4.1. Introduction***

The SCNP reports the change in net position during the reporting period, which results from changes to Unexpended Appropriations and Cumulative Results of Operations.

See Note 21 and SFFAS 43, *Funds from Dedicated Collections: Amending SFFAS 27*, for details on Funds from Dedicated Collections. Non-exchange revenue, other financing sources (as used in SFFAS 7), appropriations and net cost of operations for Funds from Dedicated Collections should be shown separately on the SCNP if the Funds from Dedicated Collections are:

- the predominant source of revenue and other financing sources or
- if one (or more) of the entity's Fund(s) from Dedicated Collections is (are) of immediate concern to the constituents of the fund, politically sensitive, controversial, or accumulating large balances or if the information provided in the financial statements would be a primary source of financial information for the public.

Entities should present Funds from Dedicated Collections on a consolidated basis in the SCNP (and on a combined and consolidated basis in the notes, as discussed in Note 21) and are required to show components of net position for Funds from Dedicated Collections on the Balance Sheet if material, as noted in sections II.3.2.1 and II.3.4.3). Agencies have the option to display information on Funds from Dedicated Collections in a separate column on the SCNP (Illustrative SCNP Options A or C) or to use an alternative format with parenthetical amounts within line item titles (Illustrative SCNP Option B).

For FY 2022, entities are encouraged to present FY 2021 on a comparative basis.

### **II.3.4.2C. Illustrative Statements of Changes in Net Position/Custodial Activity Option C**

SCNP/SCA Option C is optional for entities with (incidental) non-exchange custodial collections; comparative statements are not required in the first year of adoption. When comparative statements are presented, the illustrative statements shown below should be used for both the current year and the prior.

Lines marked with an asterisk (\*) in the illustrative table below are for use by Treasury.

Non-exchange custodial collections include non-exchange revenue collected by an entity for the General Fund, a trust fund, or other recipient entities (e.g., taxes and duties collected by the

Internal Revenue Service or Customs and Border Protection Agency). Exchange custodial collections include exchange revenues such as oil and gas revenues, as specified in SFFAS 7 and are reported on the SNC.

Collecting entities do not recognize revenue collections that have been or should be transferred to others as revenues; rather, the sources of the collections are reported as custodial revenue on the SCNP/SCA and the disposition of the custodial amounts are reported the same way. Custodial revenues may be presented with subcategory line titles or USSGL crosswalk line titles.

When collecting entities have custodial collections that are incidental to their primary mission, the sources and disposition of the collections may be reported in a standalone SCA or the SCNP/SCA or disclosed in the notes. Paragraph 45 of SFFAS 7 identifies certain exceptional circumstances in which the entity recognizes virtually no costs in connection with earning the revenue that it collects.

The transactions and balances between Funds from Dedicated Collections are eliminated in the consolidated Funds from Dedicated Collections (column in Options A and C and lines 1, 6-8, and 17-19 in Option B). The transactions and balances between Funds from Other than Dedicated Collections are eliminated in the consolidated Funds from Other than Dedicated Collections (column in Options A and C and lines 1, 6-8, and 17-19 in Option B). The Eliminations column in Options A and C reflects transactions between Funds from Dedicated Collections and Funds from Other than Dedicated Collections and should sum to zero.

Entities using the SCN/SCA for the first time may, at management's discretion, choose to include the following explanation of the new presentation:

[Reporting Entity] collects revenue on behalf of [specify the major recipient(s) of custodial revenue]. These collections do not affect [Reporting Entity's] net position. To demonstrate more clearly the relationship between [Reporting Entity's] net position and its custodial activity, [Reporting Entity] is reporting its statement of changes in net position (SCNP) and statement of changes in custodial activity (SCA) together in one presentation.

### ***II.3.4.3. Funds from Dedicated Collections***

Net position balances attributable to Funds from Dedicated Collections, if material, must be reported separately from Funds from Other than Dedicated Collections (for *Financial Report* consolidation purposes). The prior year amounts in the comparative statements need not be modified from the published prior year statements.

Non-exchange revenue, components of other financing sources (as defined in SFFAS 7), appropriations, and net cost of operations for Funds from Dedicated Collections should be shown separately on the SCN/SCA if certain criteria are met as described in SFFAS 27. SFFAS 27, as amended, lists categories of funds that are excluded from the reporting requirements and provides guidance for cases in which more than one component entity is responsible for carrying out a program financed with revenues and financing sources that are Funds from Dedicated Collections.

The combined Dedicated Collections presentation does not eliminate intra-entity balances or transactions between Funds from Dedicated Collections held by the entity. The consolidated Dedicated Collections presentation eliminates balances and transactions between Funds from Dedicated Collections held by the entity, but does not eliminate balances or transactions between Funds from Dedicated Collections and Funds from Other than Dedicated Collections. The eliminations between Funds from Dedicated Collections and Funds from Other than Dedicated Collections should sum to zero.

### **Mixed or Commingled Funds**

Resources from Funds from Dedicated Collections derived from trust or special fund receipts are often commingled or mixed with resources from the General Fund of the U.S. Government (General Fund). See OMB Circular A-11, Section 130.21 for further information on mixed funds.

Whether a mixed fund is reported as Funds from Dedicated Collections depends upon the predominant use of the fund and whether the fund as a whole meets the definition of Funds from Dedicated Collections in SFFAS 27, as amended. If the predominant source of a mixed fund is Funds from Dedicated Collections, the entire fund may be reported in the financial statements as

Funds from Dedicated Collections. See SFFAS 27, paragraph 13, for further guidance.

#### ***II.3.4.4. Unexpended Appropriations and Cumulative Results of Operations***

Beginning balances for unexpended appropriations and cumulative results of operations must agree with amounts on the prior year's Balance Sheet. Adjustments for corrections of errors and changes in accounting principles should be reported in accordance with SFFAS 21, as discussed in Section II.3.1. Beginning balances, as adjusted, are the sum of the beginning balances of net position as reported on the prior year's Balance Sheet and adjustments in beginning net position.

**Appropriations received** include amounts appropriated and will not necessarily agree with the "appropriations received" amount reported on the SBR because of differences between proprietary and budgetary accounting concepts and reporting requirements. For example, certain dedicated and earmarked receipts are recorded as "appropriations received" on the SBR, but are recognized as exchange or non-exchange revenue (i.e., typically in special and non-revolving trust funds) and reported on the SCNP in accordance with SFFAS 7.

**Appropriations transferred-in/out** are the amount of appropriations received in the current or prior year(s) that have been transferred in or out during the current year.

**Other adjustments** include adjustments to unexpended appropriations and cumulative results of operations. Examples include reductions of appropriations (SBR line 1290, Appropriations (discretionary and mandatory)) and cancellations of expired appropriation/expenditure accounts (SBR line 1051, Unobligated balance from prior year budget authority, net).

**Appropriations used** are considered a financing source when goods and services are received or benefits are provided regardless of whether the goods, services, or benefits are payable or paid as of the reporting date and regardless of whether the appropriations were used for items that are expensed or capitalized. This does not include undelivered orders or unobligated appropriations and does not increase net position; it is subtracted from Unexpended Appropriations and added to Cumulative Results of Operations for no net effect on net position.

**Non-exchange revenue** includes revenues the Government obtains through the use of its sovereign powers. See SFFAS 7 for recognition and measurement criteria. If Federal securities investment revenue is material, report it as a separate line item on the SCNP.

**Donations and forfeitures of cash and cash equivalents** include voluntary gifts (of cash or securities) and involuntary forfeitures of resources (cash or cash equivalents) by non-federal entities.

**Transfers-in/out without reimbursement** include intragovernmental non-appropriated balance transfers in or out during the current year. Non-appropriated balances include financing sources and revenue not reported as unexpended appropriations. Exchange revenue (used to calculate an entity's net cost of operations and reported as distributed offsetting receipts in the SBR) required to be transferred to the Treasury or another Federal entity must be recognized as a transfer out. Transfers-in/out without reimbursement also include intragovernmental transfers of capitalized assets. The amount of the transfer is the book value of the transferring entity and if the book value is not known, the amount should be the estimated fair value at the date of transfer.

**Donations and forfeitures of property** include voluntary gifts and (involuntary) forfeitures of resources to the Government by non-federal entities, which may be land or buildings. Revenue arising from donations/involuntary forfeitures of non-financial resources must be recognized in accordance with SFFAS 6.

**Imputed financing from costs absorbed by others** includes financing of certain costs by one Federal entity on behalf of another Federal entity (e.g., the payment of unreimbursed employee benefit costs by OPM). Imputed financing must equal the amount of imputed costs on the SNC.

**Other** includes other financing sources that are not otherwise classified above.

## **II.3.5. Statement of Budgetary Resources**

### ***II.3.5.1. Introduction***

The SBR and related disclosures provide information about how budgetary resources were made available during the period and their status at the end of the period. The SBR is derived entirely from the budgetary USSGL accounts except for distributed offsetting receipts (which are provided by Fiscal, as noted in section II.3.5.7) and should be based on guidance in OMB Circular A-11, Appendix F.

The information used to prepare the SBR should be prepared in coordination with the agency budget office and should be consistent with the budgetary information reported to GTAS during the 4th quarter reporting window (which includes the revision window). GTAS information is used to produce the 4th quarter SF 133, *Report on Budget Execution and Budgetary Resources*, and the prior-year column of the Program and Financing Schedule of the Budget.

The primary purpose of the GTAS revision window is to ensure that the amounts in GTAS are consistent with the amounts in the prior-year column of the Program and Financing Schedule. Corrections to the budget data underlying the SBR, whether material or immaterial, must be entered in OMB's MAX A-11 Data Entry system (during the time frame provided by OMB) and made to GTAS during the 4<sup>th</sup> quarter revision window (November time frame) and should be coordinated with the agency's budget office. The issuance of an audit report does not have any bearing on the requirement to make corrections to the MAX A-11 database and corresponding changes to GTAS.

Consistent with the guidance in II.3.1 *Instructions for the Annual Financial Statements* and with SFFAS 21, errors relating to the Statement of Budgetary Resources of previously issued financial statements result from mathematical mistakes, mistakes in the application of accounting principles, and oversight or misuse of facts that existed at the time the statements were prepared. Prior period financial statements, including the Statement of Budgetary Resources, should only be restated for corrections of errors that caused such statements to be materially misstated. Changes in budgetary accounting principles should be accounted for as discussed in section II.3.1 under change in accounting principles.

Budgetary information aggregated for the SBR should be disaggregated for each of the reporting entity's major budget accounts and presented as RSI pursuant to SFFAS 7, paragraph 78. (See Section II.3.9.6.)

### ***II.3.5.2. Combined Statement***

The information in this statement must be presented on a combined basis. To remain consistent with the aggregate of the account-level information on the SF 133, *Report on Budget Execution and Budgetary Resources*, consolidation of this statement is not appropriate and line-by-line consolidation is not permitted.

### ***II.3.5.3. Format of the Statement of Budgetary Resources***

The format of the SBR is based on the SF 133. The line numbering in the illustrative statement below is for reference to Circular A-11 and should not be shown on the reporting entity SBR.

Detail lines from the SF 133 are aggregated to the major categories deemed most significant in the SBR and must be used. Reporting entity management should determine whether additional detail lines reported in the SF 133 process are warranted. Because the SBR presentation is highly summarized, if management determines that further aggregation of lines is warranted, such aggregation should not be less detailed than the major categories displayed below. Similarly, if major categories are further disaggregated, subtotal lines should be presented to display the major category total.

The total amounts reported for each major category should normally agree with the comparable amounts reported for the aggregate of all budget accounts on the SF 133. Reconciliations of any differences in major categories (from, for example, timing differences or materiality) should be maintained.

In addition to budgetary information, the SBR should include a separate column for non-budgetary credit reform financing accounts, which record cash flows from post-1991 direct loans and loan guarantees.

\* Represents a line number that is unique to the SBR. Further information on the description and composition of these lines can be found in OMB Circular A-11, Appendix F.

The accompanying notes are an integral part of these statements.

### II.3.5.5. Budgetary Resources

This section presents total available budgetary resources. Budgetary resources transferred or exchanged between components within a reporting entity should not be eliminated.

### II.3.5.6. Status of Budgetary Resources

The total amount shown for the status of budgetary resources must equal total budgetary resources in the section above. The amount of direct and reimbursable new obligations and upward adjustments against amounts apportioned under Category A, B, or AB, and exempt from apportionment may be disclosed in a note to the SBR. The nature of permanent indefinite appropriations and legal arrangements affecting the use of unobligated balances must be disclosed either in Note 1 or a separate note to the SBR.

### II.3.5.7. Outlays, Net

**Outlays.** Net outlays are derived by reducing gross outlays by actual offsetting collections. Net outlays must agree with the disbursements and collections reported to Treasury for the fiscal year to date within the CARS Classifications Transaction Accountability Module. Net outlays do not include gross disbursements or offsetting collections from credit financing accounts.

**Distributed Offsetting Receipts.** Distributed offsetting receipts are collections credited to general fund, special fund, or trust fund receipt accounts that offset gross outlays of an agency, typically

the agency that conducts the activity generating the receipts. Offsetting receipts are composed of proprietary receipts from the public, receipts from intragovernmental transactions, and offsetting governmental receipts. This line item on the SBR should include all distributed offsetting receipts for the agency and deducted from gross outlays to yield net agency outlays.

The Quarterly Distributed Offsetting Receipts by Department Report can be found here: [Monthly Treasury Statement](#). Agencies should include in the SBR the receipt accounts in this report classified as:

- Proprietary Receipts from the Public;
- Intra-budgetary Receipts Deducted by Agencies; and
- Offsetting Governmental Receipts.

The amount of distributed offsetting receipts reported in this statement should be the aggregate of cash collected in these receipt accounts and reported to Treasury monthly within the CARS Classifications Transaction Accountability Module.

At management's discretion, the following description of distributed offsetting receipts may be included in a description of the SBR or a note to the SBR.

Distributed offsetting receipts are amounts that an agency collects from the public or from other Government agencies that are used to offset or reduce an agency's budget outlays. Agency outlays are measured on both a gross and net basis, with net outlays being reduced by offsetting receipts (and other amounts).

Undistributed offsetting receipts should not be included in the SBR.

**Disbursements, Net** are derived by reducing gross disbursements by actual offsetting collections and must agree with the disbursements and collections reported to Treasury for the fiscal year to date within the CARS Classifications Transaction Accountability Module. This line applies only to credit financing accounts.

## **II.3.6. Statement of Custodial Activity**

### ***II.3.6.1. Introduction***

The SCA is required for entities that collect non-exchange revenue for the General Fund, a trust fund, or other recipient entity, e.g., taxes and duties collected by the Internal Revenue Service or Customs and Border Protection Agency. The SCA is also required for entities that collect exchange revenues, including oil and gas revenues, as specified in SFFAS 7. Collecting entities do not recognize as revenue collections that have been or should be transferred to others as revenues; rather, the sources and disposition of the collections are reported on the SCA.

Because a reporting entity's custodial activity does not affect the entity's net position, for FY 2022, entities with (incidental) custodial collections (non-exchange and/or exchange) may use the separate SCA and SCNP or the combined SCNP/SCA. See section II.3.4.2C.

When collecting entities have custodial collections that are incidental to their primary mission, the sources and disposition of the collections may be disclosed in the notes, the SCA, or the combined SCNP/SCA. Paragraph 45 of SFFAS 7 identified certain exceptional circumstances in which the

entity recognizes virtually no costs in connection with earning the revenue that it collects.

### II.3.6.3. Sources of Collections

Report components of the collections (e.g., the type of tax or duty), any collection of past-due receivables for others, or other information about the source and nature of the collections. If refunds of taxes or other non-exchange revenues are material in relation to the gross collections made, consider disclosing them by component.

Additionally, report separately the non-exchange revenue accrual adjustment, which should be calculated as specified in SFFAS 7 and the related implementation guide. If the accrual adjustments are material in relation to the gross collections, consider disclosing them separately in a note. The accrual adjustment is not applicable to exchange revenues.

### II.3.6.4. Disposition of Collections

This is for the disposition of the revenue reported in the preceding section.

**Amounts Transferred to Others.** Identify agencies to which collections were transferred and

amounts transferred.

**Amounts Yet to be Transferred.** Report the change in revenue yet to be transferred, reflecting revenue accrued but not collected or collections made but not transferred.

**Amounts of Refunds and Other Payments.** This line is normally not applicable to exchange revenue.

**Amounts Retained by the Collecting Entity.** Where collecting entities are permitted to retain a portion of amounts collected, retained amounts must be reported by the collecting entity as a disposition of collections.

### ***II.3.6.5. Net Custodial Activity***

Total Custodial Revenue must equal the Total Disposition of Collections so net custodial activity equals zero.

## **II.3.7. Statement of Social Insurance & Statement of Changes in Social Insurance Amounts**

### ***II.3.7.1. Overview***

A SOSI is required for the following social insurance programs:

- Old-Age, Survivors, and Disability Insurance (OASDI or Social Security);
- Hospital Insurance (HI) and Supplementary Medical Insurance (SMI), collectively known as Medicare;
- Railroad Retirement benefits; and
- Black Lung benefits.

Under SFFAS 25, *Reclassification of Stewardship Responsibilities and Eliminating the Current Services Assessment*, as amended, the SOSI, accompanying notes, and significant assumptions are basic information and the remaining social insurance information required by SFFAS 17, *Accounting for Social Insurance*, is RSI. A SOSI preparer can elect to include some or all of the RSI in the notes. Unemployment insurance is social insurance and must report social insurance information as RSI, but a SOSI is not required for unemployment insurance under SFFAS 17, paragraphs 27(3) or 32(3).

The SOSI should present for the projection period for all current and future participants the actuarial present values as specified in SFFAS 17, paragraphs 27(3) and 32(3).

SFFAS 26, *Statement of Social Insurance: Amending SFFAS 25*, requires the disclosure of significant assumptions (Note 29). Other information required by SFFAS 17 is to be presented as RSI (as discussed below), except to the extent the preparer elects to disclose some or all of that information.

The SOSI should include a summary section pursuant to SFFAS 37, paragraphs 28 and 29.

Entities that prepare a SOSI should prepare a SCSIA pursuant to SFFAS 37, paragraphs 31 and 32.

The reasons for the significant changes should be disclosed on the statement's face, in the notes to the financial statements (Note 29), or both. See also Section II.2. See SFFAS 37, paragraph 34, for requirements regarding the valuation date and SFFAS 37, paragraph 35, and Note 1 for requirements regarding the significance of SOSI estimates.

### ***II.3.7.2. Illustrative Statements***

The illustration below features Social Security and Medicare and contains a summary section, which is based on SFFAS 37, Appendix C. Illustrations for entity statements are in SFFAS 17, Appendix B. An illustrative SCSIA is also presented below.

### II.3.8. Notes to the Financial Statements

Unless otherwise specified in a FASAB standard or in A-136, when Note information is presented for the first time, it need not be reported for the prior year. When A-136 no longer requires Note information for the current year that was required by A-136 for the prior year and when such information is not required by FASAB standards, it need not be reported for the prior year. As stated in Section II.3.1, notes should be numbered sequentially without regard to the note number in this document. In addition, notes that refer to only one line item on a statement should generally be titled the same as the line item.

#### II.3.8.1. Note 1: Summary of Significant Accounting Policies

Information in Note 1 should not be duplicated elsewhere. For example, the existence, purpose, and availability of permanent indefinite appropriations may be disclosed in Note 1 or Note 26 and cross-references to relevant notes may be made, but the information should not be duplicated. In some cases, it may be necessary to include a more detailed discussion of an accounting policy in a specific note.

## **Reporting Entity**

At management's discretion, an entity may include the following or similar language:

The reporting entity is a component of the U.S Government. For this reason, some of the assets and liabilities reported by the entity may be eliminated for Government-wide reporting because they are offset by assets and liabilities of another U.S. Government entity. These financial statements should be read with the realization that they are for a component of the U.S. Government.

Describe in accordance with SFFAS 47 the reporting entity and its major components, any consolidation or disclosure entities, and any related parties. Explain that disclosure entities are not consolidation entities. Agencies with a large number of disclosure entities or balances resulting from transactions with disclosure entities may provide this information in a separate note and include a reference to that note in Note 1. See Note 34 below.

## **Accounting Policies**

Summarize the accounting principles and methods of applying those principles that management has concluded are appropriate for presenting fairly the entity's assets, liabilities, revenues, net cost of operations, changes in net position, and budgetary resources. Disclose the basis for the valuation, recognition, and allocation of assets, liabilities, expenses, revenues and other financing sources. Describe changes in GAAP affecting the financial statements and also describe any significant change in presentation.

## **Fund Balance with Treasury and Funds from Dedicated Collections**

Explain concepts such as FBWT and Funds from Dedicated Collections, which are unique to Federal financial statements.

At management's discretion, an entity may include the following or similar language:

FBWT is an asset of a reporting entity and a liability of the General Fund. Similarly, investments in Federal Government securities that are held by Dedicated Collections accounts are assets of the reporting entity responsible for the Dedicated Collections and liabilities of the General Fund. In both cases, the amounts represent commitments by the Government to provide resources for particular programs, but they do not represent assets to the Government as a whole.

When the reporting entity seeks to use FBWT or investments in Government securities to liquidate budgetary obligations, Treasury will finance the disbursements in the same way it finances all other disbursements, using some combination of receipts, other inflows, and borrowing from the public (if there is a budget deficit).

## **Revenue and Other Financing Sources**

At management's discretion, an entity may include the following or similar language:

As a component of the Government-wide reporting entity, the entity is subject to the

Federal budget process, which involves appropriations that are provided annually and appropriations that are provided on a permanent basis. The financial transactions that are supported by budgetary resources, which include appropriations, are generally the same transactions reflected in entity and the Government-wide financial reports.

The reporting entity's budgetary resources reflect past congressional action and enable the entity to incur budgetary obligations, but they do not reflect assets to the Government as a whole. Budgetary obligations are legal obligations for goods, services, or amounts to be paid based on statutory provisions (e.g., Social Security benefits). After budgetary obligations are incurred, Treasury will make disbursements to liquidate the budgetary obligations and finance those disbursements in the same way it finances all disbursements, using some combination of receipts, other inflows, and borrowing from the public (if there is a budget deficit).

### **Budgetary Terms**

Entities are encouraged to explain applicable Federal budget terms and concepts. At management's discretion, entities may include either in Note 1 or in a note to the SBR the following or similar language:

The purpose of Federal budgetary accounting is to control, monitor, and report on funds made available to Federal agencies by law and help ensure compliance with the law.

The following budget terms are commonly used: [Insert definitions for **appropriations, budgetary resources, offsetting collections, offsetting receipts, obligations, gross outlays, and net outlays** from OMB Circular A-11, section 20.3, [s20.pdf](#) ([whitehouse.gov](#))].

For further information about budget terms and concepts, see the "Budget Concepts" chapter of the *Analytical Perspectives* volume of the President's Budget: [Analytical Perspectives | The White House](#).

### **Changes in Entity or Financial Reporting**

Disclose significant changes in the composition of the reporting entity or significant changes in the manner in which the reporting entity aggregates information for financial reporting purposes.

### **Classified Activities (applicable to all FASAB reporting entities)**

To protect classified information, including which agencies report classified information, all reporting entities must include the following in the summary of significant accounting policies:

Accounting standards require all reporting entities to disclose that accounting standards allow certain presentations and disclosures to be modified, if needed, to prevent the disclosure of classified information.

Reporting entities must not disclose application of SFFAS 56, *Classified Activities*, including any interpretations of SFFAS 56.

## **Fiduciary Activities**

Disclose that fiduciary cash and other assets are not assets of the Federal Government, are not recognized on the Balance Sheet, and are assets of a non-federal party for which the Federal Government is responsible. See SFFAS 31, paragraphs 10 and 17 through 24.

## **Parent-Child Reporting**

Each “parent” or transferring entity involved in an allocation transfer with another Federal entity must explain that there are amounts reported in its net cost of operations, changes in net position, and budgetary resources that reflect activity performed by another Federal entity. Each Federal entity with “child” or receiving accounts involved in an allocation transfer must explain that the child account performed an activity that is being reported in the parent’s financial statements. Both the parent and child must disclose the names of the other Federal entities involved in the transfers; amounts need not be included in the note. Below is an illustrative example.

*The [Reporting Entity] is a party to allocation transfers with other Federal agencies as both a transferring (parent) entity and/or a receiving (child) entity. Allocation transfers are legal delegations by one entity of its authority to obligate budget authority and outlay funds to another entity. A separate fund account (allocation account) is created in the U.S. Treasury as a subset of the parent fund account for tracking and reporting purposes. All allocation transfers of balances are credited to this account, and subsequent obligations and outlays incurred by the child entity are charged to this allocation account as they execute the delegated activity on behalf of the parent entity. Generally, all financial activity related to these allocation transfers (e.g., budget authority, obligations, outlays) is reported in the financial statements of the parent entity from which the underlying legislative authority, appropriations and budget apportionments are derived. Exceptions to this general rule affecting the [Reporting Entity] include the Executive Office of the President and Funds transferred from the Judicial Branch to the Department of Justice U.S. Marshals Service, for whom the [Reporting Entity] is the child in the allocation transfer but, per OMB guidance, will report all activity relative to these allocation transfers in the [Reporting Entity’s] financial statements. In addition to these funds, the [Reporting Entity] allocates funds, as the parent, to the [List other Federal agencies]. The [Reporting Entity] receives allocation transfers, as the child, from the [List other Federal agencies].*

## **Pension, ORB, and OPEB Reporting**

Entities that report liabilities for Federal employee pensions, ORB, and OPEB, including veterans’ compensation, should disclose the entity’s policy regarding consistency in the number of historical rates used to calculate the average historical Treasury rates from one reporting period to the next. See SFFAS 33, paragraph 31, and SFFAS 5, paragraph 66, as amended.

## **SOSI Reporting**

Entities that prepare a SOSI should explain that SOSI amounts are estimates based on current conditions, that such conditions may change in the future, and that actual cost may vary, sometimes greatly, from estimates per SFFAS 37. Below is an example that entities could include in Note 1.

The financial statements are based on the selection of accounting policies and the application of significant accounting estimates, some of which require management to make significant assumptions. Further, the estimates are based on current conditions that

may change in the future. Actual results could differ materially from the estimated amounts. The financial statements include information to assist in understanding the effect of changes in assumptions to the related information.

Disclose intragovernmental non-entity assets separately from other non-entity assets. Provide other information needed (including for example, references to other notes, such as Note 13) to understand the nature of the non-entity assets. See SFFAS 1 for further information.

**II.3.8.3. Note 3: Fund Balance with Treasury**

2. Other Information:		

**Status of Fund Balance with Treasury.** Disclose the total of the entity's FBWT, as reflected in the entity's general ledger and represented by unobligated and obligated balances. Unobligated and obligated balances presented in this section may not equal related amounts reported on the Combined Statements of Budgetary Resources because unobligated and obligated balances reported on the Combining Statements of Budgetary Resources are supported by both FBWT and other budgetary resources that do not affect FBWT (e.g., contract and borrowing authority and budgetary receivables).

Include in Non-Budgetary FBWT both FBWT in unavailable receipt accounts, clearing accounts, etc., that do not have budget authority and non-budgetary FBWT recognized on the Balance Sheet (e.g., non-fiduciary deposit funds). Separate FBWT that represents unobligated balances into available and unavailable amounts. Certain unobligated balances may be apportioned for future use and any such amounts must be explained.

**Other Information.** Explain any discrepancies between FBWT as reflected in the entity's general ledger and the Balance in Treasury accounts. Disclose any other information necessary for understanding the nature of the Fund Balance. For example, as stated in Note 1, a reporting entity may disclose, at management's discretion, that FBWT is an asset to the reporting entity, but not to the Government as a whole (because it is a liability of the General Fund). In addition, the reporting entity may disclose factors that increase FBWT (e.g., appropriations) and decrease FBWT (e.g., disbursements). Also, the entity may explain that when disbursements are made, Treasury finances those disbursements in the same way it finances all other disbursements, using some combination of receipts, other inflows, and borrowing from the public (if there is a budget deficit).

D. Additional Information		

Disclose the nature and reasons for any restrictions on cash and other monetary assets in accordance with SFFAS 1, paragraphs 27 to 30, and SFFAS 3, paragraphs 59 to 61 and 65 to 66. Note that non-entity cash is cash that a reporting entity collects and holds in a custodial capacity for the U.S. Treasury or other Federal entity. Non-entity cash is always restricted cash. In addition, disclose bid deposits held in commercial banks and any restrictions on the use or conversion of cash denominated in foreign currencies and the significant effects, if any, on net position of changes in the exchange rate that occur after the end of the reporting period, but before the issuance of financial statements. Provide other information, as appropriate, such as the valuation rate of gold.

**II.3.8.5. Note 5: Investments**

For investments in marketable Treasury securities held to maturity, non-marketable par value Treasury securities, and market-based Treasury securities held to maturity, disclose market value and acquisition cost in accordance with SFFAS 1, paragraphs 62-73. Group investments by type of security (marketable or market-based) and multiply the security market price as of the reporting date by the number of securities held as of the reporting date. For investments in intragovernmental securities for Funds from Dedicated Collections, also disclose information in accordance with SFFAS 27, paragraphs 27 and 28.

For non-intragovernmental investments, disclose fair value information as shown below.

**Fair Value Measurement Illustrative Table**

E.g., Equity Securities					
E.g., Other Assets					
Total Fair Value Measurements					

Use a short investment description and disclose the fair value measurements hierarchy classification (Levels 1, 2, 3 or Other). The investment description should reflect the type of investment and may reflect, if relevant, a Federal program name.

- Level 1 reflects the unadjusted quoted prices in active markets for identical assets that the reporting entity can access at the measurement date.
- Level 2 reflects inputs other than quoted prices in Level 1 that are directly or indirectly observable for the asset.
- Level 3 reflects unobservable inputs for the asset.
- “Other” includes investments that are measured at fair value using the net asset value per share of the investment and have not been categorized in the fair value hierarchy; for these amounts, provide a description of securities.

If the reporting entity’s non-intragovernmental investments are reported on the balance sheet using a method other than fair value, the reporting entity should reconcile the total fair value measurements disclosed in the table to the amount reported on the balance sheet.

Significant entities should also disclose a reconciliation of investment activity for non-intragovernmental securities, as shown below.

Significant entities required to prepare financial statements in accordance with accounting standards other than those promulgated by FASAB will be contacted by Fiscal Service for securities and investment information (including fair value information) necessary for the audit of the Government-wide statements.

***II.3.8.6. Note 6: Accounts Receivable, Net***

Disclose gross receivables, the method used to estimate the allowance for uncollectible accounts, and the net amount due. Include accounts receivables (e.g., premiums or fees) related to the administration of direct or guaranteed loans programs; do not include loan, interest, or foreclosed property receivables related to direct or guaranteed loans, which are reported in Note 8.

As noted in section II.3.2.3, Assets, gross receivables must be reduced to net realizable value by an allowance for doubtful accounts in accordance with SFFAS 1 and Technical Bulletin 2020-1, *Loss Allowance for Intragovernmental Receivables*. Loss allowance recognition for intragovernmental receivables does not alter the statutory requirements for the debtor agency to make the payment or for the collecting agency to seek and obtain payment. Entities should document their policies regarding allowances and criteria for assessing collectability.

Disclose separately criminal restitution that is included in accounts receivable if the amount is material to the entity, including the gross amount of receivables related to criminal restitution orders monitored by the entity and the estimate of net realizable value determined to be collectible.

***II.3.8.7. Note 7: Taxes Receivable, Net***

Disclose gross taxes receivable, the allowance for uncollectible taxes receivable, net taxes receivable, and the method used to compute the allowance for uncollectible taxes.

***II.3.8.8. Note 8: Loans Receivable, Net and Loan Guarantee Liabilities***

Loans receivable include direct loans, loans purchased, and loans acquired through subrogation resulting from loan guarantees.

Tables A through P illustrate the required financial disclosures for loans receivable, net and loan guarantee liabilities and must be supplemented by narrative.

Credit program activities under section 506(a) of Federal Credit Reform Act of 1990 (FCRA) are subject to the requirements below. FCRA exempts the credit activities of certain agencies, such as Federal Deposit Insurance Corporation and Tennessee Valley Authority, from FCRA requirements; these credit activities are not subject to the requirements below.

**A. Direct Loan and Loan Guarantee Programs:**

List the direct loan and/or loan guarantee programs administered by the reporting entity:

- (1) \_\_\_\_\_
- (2) \_\_\_\_\_
- (3) \_\_\_\_\_

Disclose that direct loan obligations and loan guarantee commitments made after FY 1991 and the resulting direct loans or loan guarantees are governed by FCRA, as amended. SFFAS 2 requires that the present value of the subsidy costs, which arises from interest rate differentials, interest supplements, and defaults (net of recoveries, fee offsets, and other cash flows) associated with direct loans and loan guarantees, be recognized as a cost in the year the direct or guaranteed loan is disbursed.

Direct loans are reported net of an allowance for subsidy at present value and loan guarantee liabilities are reported at present value.

Disclose whether pre-1992 direct loans and loan guarantees are reported on a present value basis or under the allowance-for-loss method. Under the allowance-for-loss method, the nominal amount of the direct loans is reduced by an allowance for uncollectible amounts and the liability for loan guarantees is the amount the entity estimates will more likely than not require a future cash outflow to pay default claims.

Under the present value method, the nominal amount of direct loans is reduced by an allowance equal to the difference between the nominal amount and the present value of the expected net cash flows from the loans. The liability for loan guarantees is the present value of expected net cash outflows due to the loan guarantees.

Depending on the reporting method selected by management for pre-1992 direct loans and loan guarantees, agencies should choose the appropriate format from the alternatives shown in Sections B, H, and K below. Agencies should follow either the net present value method or the allowance-for-loss method, but not both, and may not change from one method to the other without the advance approval of OMB.

Disclose that the net loans receivable or the value of assets related to direct loans is not the same as expected proceeds from selling the loans.

When the reporting entity has made payments on behalf of borrowers that should be collected from

the borrowers, the resulting receivables must be reported in the same column as loans receivable for either direct loans or defaulted guaranteed loans.

Receivables related to administrative costs of operating these programs must be reported as accounts receivable in Note 6, not as credit program receivables in Note 8.

**Narrative.** Provide other information related to direct loan and loan guarantee programs, as appropriate, including a description of the characteristics of the loan programs, any commitments to guarantee, management's method for accruing interest revenue and recording interest receivable, and management's policy for accruing interest on non-performing loans.

Disclose events and changes in economic conditions, other risk factors, legislation, credit policies, and subsidy estimation methodologies and assumptions that have had a significant and measurable effect on subsidy rates, subsidy expense, and subsidy reestimates. Include events and changes that have occurred and are more likely than not to have a significant impact even if the effects are not measurable at the reporting date. Changes in legislation or credit policies include changes in borrowers' eligibility, the levels of fees or interest rates charged to borrowers, the maturity terms of loans, and the percentage of a private loan that is guaranteed.

Explain the nature of any modifications made, the discount rate used in calculating the modification cost, and the basis for recognizing a gain or loss related to the modification. If appropriate, disclose the subsidy expense resulting from reestimates that is included in the financial statements, but not reported in the budget until the following year.

With respect to the foreclosed property reported in Sections B, C, H, and I, disclose:

- Changes from prior year's accounting methods, if any;
- Restrictions on the use/disposal of the property;
- Number of properties held and average holding period by type or category; and
- Number of properties for which foreclosure proceedings were in process at the end of the period.

**B. Direct Loans Obligated Prior to FY 1992 [specify Present Value or Allowance for Loss Method and change column header (5) accordingly]:**

(1) Direct Loans <u>Programs</u>	(2) Loans Receivable, <u>Gross</u>	(3) Interest <u>Receivable</u>	(4) <u>Foreclosed</u> <u>Property</u>	(5) Present Value <u>Allowance/</u> <u>Allowance for</u> <u>Loan Losses</u>	(6) Direct <u>Loans, Net</u>
(1) _____	xxx	xxx	xxx	Xxx	xxx
(2) _____	xxx	xxx	xxx	Xxx	xxx
Total	xxx	xxx	xxx	Xxx	xxx

For each program with pre-1992 direct loans, report the information shown above and, specify in column 5 whether the present value method or the allowance-for-loss method is used. Report in column 4 the estimated net realizable value of related foreclosed property and report in column 5 the present value allowance or the allowance for loan losses. The sum of columns 2 through 4 less column 5 is reported as the value of assets related to direct loans (column 6).

**C. Direct Loans Obligated After FY 1991:**

Total	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>

For each program with post-1991 direct loans, report loans receivable, gross; interest and fees receivable; and the estimated value of related foreclosed property in columns 2, 3, and 4, respectively. Fees receivable (here and in Tables H and I) are for fees associated with loans receivable and foreclosed property; fees receivable do not include fees related to the administration of direct loan or loan guarantee programs, which should be reflected in Note 6.

Foreclosed property associated with post-1991 direct and acquired defaulted guaranteed loans will be valued at the net present value of the projected cash flows associated with the property. For more information, refer to SFFAS 2, paragraphs 57-60, and SFFAS 3, paragraphs 79-91.

Report the related allowance for subsidy cost in contra account in column 5 and report the sum of columns 2 through 5 as the value of assets related to direct loans (column 6).

**D. Total Amount of Direct Loans Disbursed (Post-1991):**

<u>Direct Loans Programs</u>	<u>Current Year</u>	<u>Prior Year</u>
(1) _____	xxx	xxx
(2) _____	xxx	xxx
Total	<u>xxx</u>	<u>xxx</u>

Report the total amount of direct loans disbursed for each program.

**E. Subsidy Expense for Direct Loan Programs by Component:**

**E1. Subsidy Expense for New Direct Loans Disbursed (Current reporting year):**

**E3. Total Direct Loan Subsidy Expense**

Direct Loan Programs	Current Year	Prior Year
(1) _____	xxx	xxx
(2) _____	<u>xxx</u>	<u>xxx</u>
Total	xxx	xxx

Disclose for each program the information shown above.

**E1. Subsidy Expense for New Direct Loans Disbursed:** Disclose the information shown above. The interest rate differential is the difference between the interest rate charged to the borrowers and the discount rate used to calculate the present value of the direct loans and the subsidy costs. Estimated defaults are calculated net of recoveries. Column 5 should include the present value of other cash flows such as prepayments.

**E2. Direct Loan Modifications and Reestimates:** Column 2 should reflect the subsidy expense for all modifications of direct loans previously disbursed, whether pre-1992 or post 1991. Column 5 should reflect the sum of columns 3 and 4.

**E3. Total Direct Loan Subsidy Expense:** This is the total subsidy expense for direct loans, modifications, and reestimates.

**F. Subsidy Rates for Direct Loans by Program and Component:**

Budget Subsidy Rates for Direct Loans for the Current Year's Cohorts					
<u>Direct Loan Programs</u>	<u>Interest Differential</u>	<u>Defaults</u>	<u>Fees and Other Collections</u>	<u>Other</u>	<u>Total</u>
(1)	xx%	xx%	xx%	xx%	xx%
(2)	xx%	xx%	xx%	xx%	xx%

Disclose for each program the information shown above, with defaults estimated net of recoveries. The subsidy rate is the dollar amount of the total subsidy or a subsidy component as a percentage of the direct loans obligated in the cohort and should be consistent with the rates published in the Federal Credit Supplement to the current year Budget. Use trend data to show significant fluctuations in subsidy rates and explain the underlying causes for the fluctuations.

The reporting entity should disclose the following:

The subsidy rates disclosed pertain only to the current year's cohorts. These rates cannot be applied to the direct loans disbursed during the current reporting year to yield the subsidy expense. The subsidy expense for new loans reported in the

current year could result from disbursements of loans from both current year cohorts and prior year(s) cohorts. The subsidy expense reported in the current year also includes modifications and reestimates.

**G. Schedule for Reconciling Subsidy Cost Allowance Balances (Post -1991 Direct Loans):**

	FY 2xxx (CY)	FY 2xxx (PY)
<b>Beginning balance of the subsidy cost allowance</b>	\$	\$
Add total subsidy expense for direct loans disbursed during the reporting years as shown in E1

(e) Subsidy allowance amortization		
(f) Other		
Ending balance of the subsidy cost allowance before reestimates		
Add or subtract total subsidy reestimates as shown in E2		
<b>Ending balance of the subsidy cost allowance</b>	\$	\$

Display the information shown above for outstanding direct loans reported in the Balance Sheet for direct loans obligated on or after October 1, 1991. Reporting entities are encouraged but not required to display reconciliations for direct loans obligated prior to October 1, 1991, in schedules separate from the direct loans obligated after September 30, 1991.

**H. Defaulted Guaranteed Loans from Pre-1992 Guarantees [specify Present Value or Allowance-for-Loss Method and change column header (5) accordingly]:**

(2)	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>
Total	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>

Disclose the information shown above and specify in column 5 whether the present value method or the allowance-for-loss method is used. Report the estimated net realizable value of related foreclosed property in column 4 and the present value allowance or allowance for loan losses in column 5. The sum of columns 2 through 4 less column 5 is reported as value of assets related to defaulted guaranteed loans receivable, net (column 6).

**I. Defaulted Guaranteed Loans from Post 1991 Guarantees:**

(1)	(2)	(3)	(4)	(5)	(6)
Loan Guarantee Programs	Defaulted Guaranteed Loans Receivable, Gross	Interest and Fees Receivable	Foreclosed Property	Allowance for Subsidy Cost (Present Value)	Value of Assets Related to Defaulted Guaranteed Loans Receivable, Net

(2) _____	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>-xxx</u>	<u>xxx</u>
Total	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>	<u>-xxx</u>	<u>xxx</u>

For each program with post-1991 loan guarantees, report the information shown above. Report the related allowance for subsidy cost in the contra account in column 5. Report the sum of columns 2 through 5 as the value of assets related to defaulted guaranteed loans receivable, net (column 6). For foreclosed property, see the instructions for Section C. The sum of the amounts reported in column 6 of Sections B, C, H, and I above, must equal the amount reported on the Balance Sheet as loans receivables and related foreclosed property, net.

**J. Guaranteed Loans Outstanding:**

<b>J1. Guaranteed Loans Outstanding:</b>

Loan Guarantee Programs	Principal of Guaranteed Loans, Face Value	Amount of Principal Guaranteed
(1) _____	xxx	xxx
(2) _____	<u>xxx</u>	<u>xxx</u>
Total	<u>xxx</u>	<u>xxx</u>

For each loan guarantee program, disclose the information shown above.

**K. Liability for Loan Guarantees [specify Present Value or Estimated Future Default Claims Method and change column (2) header accordingly]:**

(1)	(2)	(3)	(4)
Loan Guarantee <u>Programs</u>	Liabilities for Losses on Pre- 1992 Guarantees, Present Value/ Estimated Future	Liabilities for Post-1991 Guarantees, <u>Present Value</u>	Loan Guarantees Liabilities for Loan <u>Guarantees</u>
(1) <u>    </u>	xxx	xxx	xxx
(2) <u>    </u>	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>
Total	<u>xxx</u>	<u>xxx</u>	<u>xxx</u>

For each program with pre-1992 loan guarantees, disclose the information shown above and if the present value method is used to calculate the liability, report in column 2 the present value of liabilities for losses on pre-1992 loan guarantees. If the estimated future default claims method is used, report in column 2 the estimated future default claims.

For each program with post-1991 loan guarantees, report in column 3 the present value of the estimated net cash flows (outflows less inflows) to be paid as a result of the guarantees. Report the total of columns 2 and 3 as total guarantee liabilities (column 4).

**L. Subsidy Expense for Loan Guarantees by Program and Component:**

Total	<u>xxx</u>	<u>xxx</u>			

Disclose for each program the total subsidy expense and its components, and the subsidy expense for modifications and reestimates, as shown above.

**L1. Subsidy Expense for New Loan Guarantees:** Disclose for each program the total subsidy expense and its components: interest supplement costs, default costs net of recoveries, fees and other collections (offsetting expense), and other costs. Column 6 is the sum of columns 2 through 5.

**L2. Loan Guarantee Modifications and Reestimates:** Disclose for each program the subsidy expense for modifications of loan guarantees in guaranteed loans whether pre-1992 or post-1991, reestimates of the subsidy expense for previous loan guarantees by component (interest rate and technical/default), and the sum of the reestimates (column 5).

**L3. Total Loan Guarantee Subsidy Expense:** Disclose the total subsidy expense for the current and prior year's loan guarantees, modifications, and reestimates.

**M. Subsidy Rates for Loan Guarantees by Program and Component:**

<b>Budget Subsidy Rates for Loan Guarantees for the Current Year's Cohorts:</b>					
Loan Guarantee	Interest		Fees and Other		
<u>Programs</u>	<u>Supplements</u>	<u>Defaults</u>	<u>Collections</u>	<u>Other</u>	<u>Total</u>
(1) _____	xx%	xx%	xx%	xx%	xx%
(2) _____	xx%	xx%	xx%	xx%	xx%

Disclose for each program the subsidy rates for interest supplement costs, default costs net of recoveries, fees and other collections, and other costs estimated for loan guarantees in the current year's Budget for the current year's cohorts. The subsidy rate is the dollar amount of the total subsidy or subsidy component expressed as a percentage of guarantees committed for the cohort and should be consistent with the rates published in the Federal Credit Supplement to the Budget. Entities may use trend data to show significant fluctuations in rates and should explain the underlying causes for the fluctuations.

Also disclose the following:

The subsidy rates disclosed pertain only to the current year's cohorts. These rates cannot be applied to the guarantees of loans disbursed during the current reporting year to yield the subsidy expense. The subsidy expense for new loan guarantees reported in the current year could result from disbursements of loans from both current year cohorts and prior year(s) cohorts. The subsidy expense reported in the current year also includes modifications and reestimates.

<b>Ending balance of the loan guarantee liabilities</b>		

Show a reconciliation between the beginning and ending balances of the liability for outstanding loan guarantees reported in the Balance Sheet for loan guarantees using the illustrative schedule above. Reporting entities are encouraged but not required to display reconciliations for loan guarantees committed prior to October 1, 1991, in schedules separate from the loan guarantees committed after September 30, 1991.

**O. Administrative Expense:**

<b>Total</b>	<b>xxx</b>	<b>Total</b>	<b>xxx</b>

Report the portions of salaries and other administrative expenses that have been accounted for in support of the direct loan programs and loan guarantee programs. Report the expenses for the individual programs, if material.

**P. Loans Receivable:**

To assist in the compilation of the *Financial Report*, significant entities with loans receivable and defaulted guaranteed loans receivable should report a summary table that shows the change in net receivables, as shown in the illustration below.

**For FY 2022**, this table is required. Comparative information is not required in the first year of implementation.

Reporting entities are encouraged but not required to display reconciliations for direct loans obligated prior to October 1, 1991, in schedules separate from the FCRA direct loans.

### ***II.3.8.9. Note 9: Inventory and Related Property, Net***

Disclose information about each category of inventory and related property, in accordance with SFFAS 3, as amended, and Federal Financial Accounting and Auditing Technical Release (TR) 4, *Reporting on Non-Valued Seized and Forfeited Property*, as noted below.

**Inventories:** Refer to SFFAS 3, paragraphs 26(a)v (deemed cost valuation), 27 (held in reserve for future sale), 29 and 30 (excess, obsolete, and unserviceable inventory), and 35 (required disclosures).

**Operating materials and supplies:** Refer to SFFAS 3, paragraphs 26(a)v (deemed cost valuation), 45 (held in reserve for future use), 47 (excess, obsolete, and unserviceable inventory) and 50 (required disclosures).

**Stockpile materials:** Refer to SFFAS 3, paragraphs 26(a)v (deemed cost valuation), 55 (held for sale), and 56 (required disclosures).

**Seized property:** Refer to SFFAS 3, paragraph 66, and TR 4. Entities with seized cryptocurrency should contact Treasury and OMB to discuss reporting requirements.<sup>8</sup> (See Appendix B for contact

<sup>8</sup> Among other things, SFFAS 3 provides recognition criteria and valuation requirements for seized monetary

information.)

**Forfeited property:** Refer to SFFAS 3, paragraph 78, and TR 4. Entities with forfeited cryptocurrency (just as entities with seized cryptocurrency) should contact Treasury and OMB to discuss reporting requirements. (See Appendix B for contact information.)

**Foreclosed Property:** Refer to SFFAS 3, paragraph 91.

**Goods held under price support and stabilization programs:** Refer to SFFAS 3, paragraph 109.

Alternative methods for establishing opening balances for inventory and related property are provided in SFFAS 48, *Opening Balances for Inventory, Operating Materials and Supplies, and Stockpile Materials*.

### ***II.3.8.10. Note 10: General Property, Plant, and Equipment, Net***

Disclose information about the major classes of general PP&E (e.g., buildings, structures, and facilities; furniture, fixtures, and equipment; construction in progress; vehicles; internal use software; and land) in accordance with SFFAS 6, paragraph 45; SFFAS 10, paragraph 35 (and 36(f), if applicable); and SFFAS 44, paragraphs 21 and 25.

The following disclosures are required for each major class of general PP&E:

- Cost, associated accumulated depreciation, and book value
- Use and general basis of any estimates used
- Estimated useful life
- Method(s) of depreciation
- Capitalization threshold(s), including any changes in threshold(s) during the period
- Restrictions on the use or convertibility of general PP&E

Alternative methods for establishing opening balances for general PP&E are provided in SFFAS 50, *Establishing Opening Balances for General Property, Plant, and Equipment: Amending SFFAS 6, SFFAS 10, SFFAS 23 and Rescinding SFFAS 35*.

To support the *Financial Report* compilation process, significant entities should disclose the illustrative reconciliation below. In addition, the components of the changes in PP&E, Net, should be reflected in the Net Cost to Net Outlays reconciliation, as appropriate.

Under SFFAS 59, *Accounting and Reporting of Government Land*, PP&E land values will be removed from the balance sheet beginning in FY 2026. See section II.3.9.8 below for more information. If applicable, entities may include the following in this note: “Information concerning deferred maintenance and repairs and estimated land acreage is discussed in unaudited required supplementary information.”

**II.3.8.11. Note 11: Stewardship PP&E**

Disclose information about heritage assets and stewardship land in accordance with SFFAS 29, paragraphs 25 through 27 and paragraph 40, respectively. As applicable, entities may include the following in this note: “Information concerning deferred maintenance and repairs and estimated land acreage is discussed in unaudited required supplementary information.”

H. Other Information \_\_\_\_\_

Disclose intragovernmental liabilities not covered by budgetary resources separately from other liabilities not covered by budgetary resources and provide other information needed to understand the nature of liabilities not covered by budgetary resources.

Generally, debt is classified as not covered by budgetary resources. However, liabilities covered by budgetary resources, include, among other things, direct loan and guaranteed loan financing account debt to Treasury.

As stated in Note 1, and at management’s discretion, entities may include the following or similar language:

Liabilities not covered by budgetary resources require future congressional action whereas liabilities covered by budgetary resources reflect prior congressional action. Regardless of when the congressional action occurs, when the liabilities are liquidated, Treasury will finance the liquidation in the same way that it finances all other disbursements, using some combination of receipts, other inflows, and borrowing from the public (if there is a budget deficit).

Liabilities that do not require the use of budgetary resources are covered by monetary assets that are not budgetary resources to the entity (and may be discussed in Note 2). Entities with material amounts of liabilities in this category, such as liabilities for non-fiduciary deposit funds, should provide a brief description of those liabilities.

See the Liabilities section above for definitions of the three types of liabilities.

This table should be used only by entities issuing debt securities, including Treasury (and the Federal Financing Bank), the Department of Housing and Urban Development, the Tennessee Valley Authority, the Federal Communications Commission, and the National Archives and Records Administration and is encouraged for FY 2022.

Lines A(1) and A(2) should be reported only by the Treasury other than the Federal Financing Bank. Line B is agency debt issued under special financing authorities (e.g., Federal Housing Administration debentures, and Tennessee Valley Authority bonds) and Federal Financing Bank securities issued to the Civil Service Retirement and Disability Fund. For both lines A and B, debt securities held by Government accounts should be reported separately from debt securities held by the public. Net new borrowings/repayment should not include amounts that result from refinancing.

**Other Information** should include (1) the names of the agencies other than Treasury to which intragovernmental debt is owed, (2) the amounts owed, and (3) any other information relevant to

the debt securities (e.g., redemption or call of debts owed to the public before maturity dates, write-offs of debts owed Treasury or the Federal Financing Bank).

This is debt other than securities **owed by reporting entities** to other Federal agencies or the public. This would include debt (payment certificates) of the Export Import Bank, and amounts owed to the Federal Financing Bank, Treasury other than the Federal Financing Bank, other Federal agencies, and the public. It also includes direct loan and guaranteed loan financing account debt (owed to Treasury other than the Federal Financing Bank). This table is encouraged for FY 2022.

**II.3.8.15. Note 15: Federal Employee and Veteran Benefits Payable**

In accordance with SFFAS 5 and SFFAS 33, entities responsible for administering pensions, ORB, and OPEB (including post-retirement health, life insurance, veterans’ compensation and burial, and veteran education benefits) should disclose a reconciliation of beginning and ending pension, ORB, and OPEB liability balances, broken out by program, as shown in the illustrative reconciliation below:

Beginning liability balance	\$ xxx
Expense:	
Normal Cost:	xxx
Interest on the liability balance	xxx
Actuarial (gain)/loss:	
From experience:	xxx
From assumption changes:	xxx
Prior service costs from plan changes	xxx
Other:	xxx
Total expense	<u>xxx</u>
Less amounts paid:	<u>xxx</u>
Ending liability balance	\$ xxx

Significant pension, ORB, and OPEB programs should be presented individually in separate columns along with an “all other” column, if applicable, and a “total” column for each line item. To support the preparation of the *Financial Report*, all amounts for pension, post-retirement health, and life insurance must be disclosed separately even if immaterial.

Entities responsible for administering pensions, ORB, and OPEB should also disclose information related to assets (see SFFAS 33, paragraph 25, and SSFAS 5, paragraphs 68 and 85).

In addition, these entities should disclose information about discount rates (see SFFAS 33, paragraphs 28 and 31) and other assumptions (see SFFAS 33, paragraph 35, and SFFAS 5, paragraphs 67, and 83).

To support the preparation of the *Financial Report*, entities responsible for administering pensions must disclose the rates of interest and inflation, projected salary increases, and the cost-of-living adjustment used to determine the pension liability and related expense. Separate rates must be disclosed for the Federal Employees' Retirement System (FERS), the Civil Service Retirement System (CSRS), and the military retirement system. If a pension plan uses assumptions that differ from those used by the Civil Service Retirement System, the Federal Employees' Retirement System, and the Military Retirement System, the plan should disclose how and why its assumptions differ.

Also, to support the preparation of the *Financial Report*, entities responsible for administering post-retirement health benefits must disclose the rate of interest, the single equivalent medical cost trend rate, and the ultimate medical trend rate used to determine the health benefits liability and related expense.

Entities responsible for administering civilian life insurance benefits must disclose the rates of interest and salary increases used to determine the life insurance benefits liability and related expense.

Entities responsible for workers compensation benefits should disclose the cost-of living adjustments and the consumer price index-medical used to determine the benefits liability and related expense.

Entities responsible for veterans' compensation and burial benefits should disclose the rates of interest and inflation used to determine the benefits liability and related expense.

For FY 2022, entities should disclose the amount of unfunded accrued annual leave. If entities do not use this note and instead report unfunded accrued annual leave in Other Liabilities, then the Other Liabilities Note should disclose the unfunded accrued annual leave amount. As noted in Section II.3.2.4, for FY 2023, both accrued funded payroll and leave and unfunded accrued annual leave will be in Note 15.

#### ***II.3.8.16. Note 16: Environmental and Disposal Liabilities***

Disclose information about environmental and disposal liabilities in accordance with SFFAS 5 paragraphs 19-42; SFFAS 6, paragraphs 107-111 and TR 2, *Determining Probable and Reasonably Possible for Environmental Liabilities in the Federal Government*. See Interpretation 9 for liabilities involving multiple component entities (cited in section II.3.2.4 above).

Also disclose information about liabilities related to friable and non-friable asbestos cleanup costs deemed probable but not reasonably estimable in accordance with paragraphs 48 and 49 of Technical Bulletin 2006-1, *Recognition and Measurement of Asbestos-Related Cleanup Costs*.

The environmental and disposal liabilities line item includes both non-legal contingent and non-contingent environmental and disposal liabilities. Contingent liabilities related to litigation reported in the agency legal letter and/or management schedule, including environmental and disposal related litigation, are reported in the Other Liabilities line item.

This note should include a reference to Note 20 if non-legal environmental and disposal contingencies are disclosed in Note 20.

### ***II.3.8.17. Note 17: Insurance Programs***

Exchange transaction insurance programs other than life insurance need to make disclosures as specified in SFFAS 51 paragraphs 38-41.

Non-exchange transaction insurance programs need to make disclosures as specified in SFFAS 51 paragraphs 49-52.

Life insurance programs need to make disclosures as specified in SFFAS 51 paragraphs 65-68 in the Federal employee and veteran benefits payable note (Note 15).

### ***II.3.8.18. Note 18: Other Liabilities***

Disclose intragovernmental and other than intragovernmental other liabilities separately and provide other information necessary to understand the nature of other liabilities. Other liabilities, both material and immaterial amounts, must be reported in GTAS using the proper USSGL account. To support the preparation of the Government-wide statements, the other liabilities shown below must be disclosed and any immaterial amounts for the numbered line titles in the Balance Sheet Template must also be disclosed. Also, pursuant to SFFAS 1, paragraph 86, disclose the amount of other current liabilities (i.e., liabilities required to be paid within a year) that are not covered by budgetary resources.

For intragovernmental amounts, entities may use the USSGL crosswalk titles or they may use their own line titles. For other than intragovernmental other liabilities, the separate lines should reflect only those shown in the USSGL crosswalk in the TFM. (See Note 38 for a hyperlink to the crosswalk.)

Legal liabilities reported in this note must be consistent with accrued probable contingencies reported in the Commitments and Contingencies note and the total probable legal matters reported on the agency management schedule.

**II.3.8.19. Note 19: Leases**

**A. Entity as Lessee.**

**Capital Leases:** Disclose Federal and non-federal leases separately.

**Summary of Assets Under Capital Lease:** Enter the gross assets under capital lease by major asset category and the related total accumulated amortization.

**Description of Lease Arrangements:** Provide information that describes the nature of the leases, such as major asset categories and/or the number of locations where building space is leased, the range of dates when lease terms expire, and, if applicable, the accounting treatment of rent holidays and leasehold improvements.

**Future Payments Due:** Enter future lease payments by major asset category for all capital leases with terms longer than one year.

Show deductions for imputed interest and executory costs. Separately disclose the portions of the capital lease liability covered by budgetary resources and not covered by budgetary resources. See Appendix B, Budgetary Treatment of Lease-Purchases and Leases of Capital

Assets of OMB Circular A-11 for additional guidance, but note a difference in terminology; the term capital leases as used in Note 19 includes both capital leases and lease purchases as those terms are used in Circular A-11. Under Circular A-11, capital leases entered into in FY 1992 and later are required to be fully funded in the first year of the lease.

**Operating Leases:** Disclose Federal and non-federal leases separately.

**Description of Lease Arrangements:** Provide information that describes the nature of the leases, such as major asset categories and the range of dates when lease terms expire.

**Future Payments Due:** Disclose future lease payments by major asset category for all non-cancelable leases with terms longer than one year. Disclosure of future payments for cancelable leases is optional, but if disclosed, future payments for cancelable leases should be separate from future payments for non-cancelable leases.

#### **B. Entity as Lessor.**

**Description of Lease Arrangements:** Disclose the commitment of the entity's assets, including the major asset category and lease terms.

**Future Projected Receipts:** Enter projected future lease revenues by major asset category for all capital and non-cancelable operating leases with terms longer than one year. Disclosure of future receipts for cancelable leases is optional, but if disclosed, projected future receipts for cancelable leases should be separate from projected future receipts for non-cancelable leases.

#### **C. Other Information.**

Provide other information necessary for understanding leases that is not disclosed in the above categories.

Federal reporting entities reporting under FASAB standards should continue to follow current FASAB lease guidance until SFFAS 54 becomes effective in FY 2024; they should not follow the FASB's new lease standards (Accounting Standards Codification – Leases – Topic 842) or the Governmental Accounting Standards Board's (GASB) lease standards (GASB Statement No. 87, Leases).

Paragraphs 43 through 46 of SFFAS 5 and paragraphs 20 and 29 of SFFAS 6 are not rescinded by SFFAS 54 until it becomes effective. Previously existing FASB guidance under Accounting Standards Codification – Leases – Topic 840 should continue to be used when the accounting treatment for a lease transaction or event is not specified by paragraphs 43-46 of SFFAS 5 or paragraphs 20 and 29 of SFFAS 6.

See the SFFAS 54 paragraph in the Lease Liabilities discussion in section II.3.2.4, Liabilities, for further information about SFFAS 54 implementation.

#### **II.3.8.20. Note 20: Commitments and Contingencies**

Commitments may include, for example, long-term leases (Note 19), undelivered orders (Note 26), public-private partnerships (Note 33), international or other agreements in support of

international economic development, or agreements in support of financial market stability. Disclose as commitments in this note any material commitment that is not disclosed elsewhere.

Disclose contingent liabilities and contingencies, including those arising from treaties or other international agreements, in accordance with SFFAS 5, paragraphs 39 through 42. See the illustrative table below; each type of contingency (legal, environmental, and other) must be provided separately. See also Table 1: Accounting for Contingent Losses, in Section 1002 (“Inquiries of Legal Counsel”) of GAO’s Financial Audit Manual Volume 2 (GAO-18-625G, updated March 2021) for a guide to contingency loss reporting.

<b>Other Contingencies:</b>

Reasonably Possible		\$ XX	\$ XX

For probable losses where the future outflow or sacrifice of resources is measurable, the estimated liability may be a specific amount or a range of amounts. If some amount within the range is a better estimate than any other amount within the range, that amount is recognized and the range is disclosed. If no amount within the range is a better estimate than any other amount, the minimum amount in the range is recognized and the range and a description of the nature of the contingency should be disclosed. See SFFAS 5, paragraphs 39-41.

<sup>9</sup> "Legal" contingencies refer to those contingencies and contingent liabilities that are reported in the legal letter and/or management schedule, which include environmental and non-environmental matters.

If the amount or a range of loss cannot be estimated, disclose that an estimate cannot be made.

Accrued probable legal and other contingencies disclosed in this note must also be reported in the Other Liabilities note. In addition, the amounts in the Legal Contingencies section of the table must be consistent with the information summarized on the agency's management schedule and legal representation letter.

This note should include a reference to Note 16 if non-legal environmental and disposal loss contingencies are disclosed in Note 20.

### ***II.3.8.21. Note 21: Funds from Dedicated Collections***

Entities with material amounts of Funds from Dedicated collections must use the templates below, which show Funds from Dedicated Collections on both a combined and consolidated basis.

Eliminations reflect intra-entity balances and transactions between the entity's dedicated collections funds.

Significant entities required to prepare financial statements in accordance with accounting standards other than those promulgated by FASAB will be contacted by Fiscal Service for Dedicated Collections information necessary for the Government-wide statements.

Lines marked with an asterisk are required to support the Government-wide *Financial Report* lines with the same title.

In addition to the illustrative statements above, disclose, in accordance with SFFAS 27, paragraphs 21 and 24, all Funds from Dedicated Collections (as defined by SFFAS 27, paragraphs 13 and 14) for which the reporting entity has program management responsibility and information in SFFAS 27, paragraphs 22 through 23, and 25 through 28.

Entities may, at management's discretion, supplement the SFFAS 27 paragraph 28 disclosure with the following language:

Treasury securities reflect a Government commitment to the program and allow the program to continue to provide benefits required by law. When the benefits are paid, the way the Government finances the benefits is similar to the way it finances other disbursements, using some combination of receipts, other inflows, and borrowing from the public (if there is a budget deficit).

**Note Disclosures Related to the Statement of Net Cost**

**II.3.8.22. Note 22: Suborganization Program Costs**

If the reporting entity's organizational structure and operations are complex or if the SNC displays highly aggregated program information, disclose costs and revenues to support the SNC, as shown in the illustrative statement below.

**II.3.8.23. Note 23: Stewardship PP&E Obtained Through Transfer, Donation or Devise**

Disclose (1) transfers of heritage assets and stewardship land between Federal entities (by the number of physical units by major category) and (2) the fair value and number of physical units by major category of heritage assets and stewardship land acquired through donation or devise in accordance with SFFAS 29.

**II.3.8.24. Note 24: Exchange Revenues**

Disclose exchange revenue pricing and loss information in accordance with SFFAS 7, paragraph 46.

**II.3.8.25. Note 25: Inter-Entity Costs**

Pursuant to SFFAS 4, as amended, paragraph 113A, reporting entities should disclose that only certain inter-entity costs are recognized for goods and services that are received from other federal entities at no cost or at a cost less than the full cost. An illustrative disclosure that reflects unreimbursed costs that are required to be imputed by GAAP is shown below. Entities should also disclose the general nature of other imputed costs recognized in their financial statements in

addition to the information shown below.

Goods and services are received from other federal entities at no cost or at a cost less than the full cost to the providing federal entity. Consistent with accounting standards, certain costs of the providing entity that are not fully reimbursed [by the component reporting entity] are recognized as imputed costs [in the Statement of Net Cost], and are offset by imputed revenue [in the Statement of Changes in Net Position]. Such imputed costs and revenues relate to business-type activities (if applicable), employee benefits, and claims to be settled by the Treasury Judgment Fund. However, unreimbursed costs of goods and services other than those identified above are not included in our financial statements.

### *Note Disclosures Related to the Statement of Budgetary Resources*

#### **II.3.8.26. Note 26: Statement of Budgetary Resources**

Notes related to the SBR may be disclosed separately or in a single note.

- A. Disclose material adjustments during the reporting period to budgetary resources available at the beginning of the year, net **adjustments to unobligated balance brought forward**, that are necessary to reconcile the beginning balance to the prior year's ending balance and explain the adjustments in accordance with SFFAS 7, paragraph 79(d). For corrections of errors, this may include the amount of the errors and the period in which the errors occurred.

Separately disclose all adjustments made to the prior year's ending unobligated balance (i.e., the current year's beginning unobligated balance) reported on line 1020 of the SF-133, Report on Budget Execution and Budgetary Resources.

- B. Disclose the repayment requirements, financing sources for repayment, and other **terms of borrowing authority used** in accordance with SFFAS 7, paragraph 79.
- C. Disclose the amount of **available borrowing and contract authority at the end of the period** in accordance with SFFAS 7, paragraph 79.
- D. Disclose the amount of budgetary resources obligated for **undelivered orders at the end of the period**, separately disclosing Federal and non-federal and disclosing paid and unpaid amounts for each.
- E. Disclose the existence, purpose, and availability of **permanent indefinite appropriations** in accordance with SFFAS 7, paragraph 79, either in a note to the SBR or in Note 1.
- F. Disclose, in accordance with SFFAS 7, paragraph 79(f), "information about **legal arrangements affecting the use of unobligated balances** of budget authority, such as time limits, purpose, and obligation limitations."
- G. Agencies should explain material **differences** that exist between the SBR and the Budget of the U.S. Government, including:

1. The budgetary resources, new obligations, upward adjustments (total), and net outlay amounts from the prior year (i.e., FY 2021) SBR and the actual amounts from “Detailed Budget Estimates by Agency” found in the *Appendix* of the Budget (i.e., the FY 2021 amounts in the FY 2023 Budget).
2. The distributed offsetting receipts amount from the prior year (i.e., FY 2021) SBR and the actual amount from the “Federal Budget by Agency and Account” in the Analytical Perspectives of the Budget (i.e., the FY 2021 amounts in the FY 2023 Budget).

Agencies should disclose that the Budget with the actual amounts for the current year (i.e., FY 2022) will be available at a later date at [President's Budget | The White House](#).

Below is an illustrative schedule.

	Budgetary Resources	New Obligations & Upward Adjustments (Total)	Distributed Offsetting Receipts	Net Outlays

H. Disclose capital infusion received, **contributed capital**, during the reporting period in accordance with SFFAS 7, paragraph 79.

### ***Note Disclosures Related to the Statement of Custodial Activity***

#### ***II.3.8.27. Note 27: Incidental Custodial Collections***

Entities collecting custodial revenues that are incidental to their primary mission may disclose the sources and amounts of the collections and the amounts distributed to others rather than having a separate Statement.

#### ***II.3.8.28. Note 28: Custodial Revenues***

Entities with significant custodial collections may disclose a note, such as the following, that explains custodial collections (the nature, purpose, and impact of the collections on agency financial statements):

[Reporting Entity’s] mission requires it to collect [non-exchange revenues from XXX for the General Fund, XX trust/special fund, or Entity X] **OR** [exchange revenues from YYY for YY trust/special fund, or Entity Y]. The custodial collections do not affect [Reporting Entity’s] net cost or net position. Instead, the collections are transferred to [Recipient Reporting Entity/ies] where the impact on financial statements is shown.

Disclose (as shown in the illustrative tables below) information about the collection of custodial non-exchange revenue in accordance with SFFAS 7, paragraphs 64-66, including: (1) basis of accounting, (2) for entities that collect taxes and duties, factors affecting the collectability and

timing of accounts receivable, (3) for entities that collect taxes and duties, cash collections and refunds by tax year and type of tax during the current fiscal year and during the prior fiscal year(s), as appropriate, and (4) the reason(s), if any, for not recording trust fund revenues in accordance with applicable law.

***Note Disclosures Related to the Statement of Social Insurance and the Statement of Changes in Social Insurance Amounts***

***II.3.8.29. Note 29: Statement of Social Insurance and Statement of Changes in Social Insurance Amounts***

Disclose social insurance program information in accordance with SFFAS 17, paragraphs 27(3) (h) through (3)(j), SFFAS 26, paragraph 5, and SFFAS 37, paragraph 32.

See the RSI Section below for additional required social insurance information.

To support the preparation of the *Financial Report*, entities responsible for the Medicare program should disclose the general revenue contributions under Medicare Parts B and D for the current law and alternative scenarios. In addition, entities responsible for the Railroad Retirement program should disclose the financial interchange revenue received from the Social Security program.

***Note Disclosures Not Pertaining to a Specific Statement***

***II.3.8.30. Note 30: Fiduciary Activities***

Disclose information about fiduciary activities in accordance with SFFAS 31. Below are illustrative schedules. In addition to these disclosures, to support the preparation of the *Financial Report*, disclose the number of fiduciary funds for which the entity has management responsibility.

**II.3.8.31. Note 31: Restatements**

If material misstatements are identified in the prior period financial statements, the entity must explain the material misstatements.

If the amount of the misstatement is known, disclose restatement information in accordance with SFFAS 21, paragraphs 10 and 11, and the actions management took after discovering the error in accordance with the procedures provided in the “Error Correction Communication Requirements” subsection in II.3.1. above (i.e., whether the subsequent period audited financial statements were “imminent” or not imminent and when the entity restated). Under OMB’s current audit bulletin, “imminent” means “within 90 calendar days of the subsequent period financial statements planned issue date.”

If the amount of the misstatement is unknown, disclose:

1. A statement that a material misstatement or potential material misstatement affects a previously issued financial statements, but the specific amount of the misstatement and the related effect of such are not known,
2. The nature and cause of the misstatement or potential misstatement,
3. An estimate of the magnitude of the misstatement or potential misstatement and the related effect of such on previously issued financial statements (e.g., the specific statement and line items affected) that are known and a statement that the specific amount and related effect of such cannot be determined without further investigation, and
4. A statement disclosing that a restatement to a previously issued financial statement will or may occur.

### ***II.3.8.32. Note 32: Reconciliation of Net Cost to Net Outlays (Budget to Accrual Reconciliation)***

Disclose a reconciliation of net cost to net outlays (which is also known as the “Budget to Accrual Reconciliation”) as required by SFFAS 7, as amended by SFFAS 53, *Budget and Accrual Reconciliation*, **following the guidance in the TFM**. If the TFM guidance results in a change in presentation, entities may opt to change or not change the prior year presentation in the first year of implementation of any new TFM guidance. Entities should ensure that the note explains the purpose, nature, and significant line items in the reconciliation and are strongly encouraged to use the TFM crosswalk, but should be advised that it is not all inclusive and presents only the most common scenarios. Management discretion and professional judgment must be used when preparing this reconciliation.

When submitting notes using MAX, significant entities must also submit the crosswalk used to prepare Note 32 and reconcile the information in Note 32 with the new investment information in Note 5, the new information required for loans and loan guarantees in Tables N and P in Note 8, and the components of the changes in PP&E, Net in Note 10.

In addition, the following guidance applies to entities with loans receivables under FCRA.

- Net cost should be reconciled to net outlays, which should exclude financing account activity. As shown on the SBR, net outlays represent net budgetary outlays and do not include net disbursements of credit financing accounts.
- To account for timing differences between SFFAS 2 and the budget with respect to the subsidy cost, (1) the current year accrual subsidy cost should be included in the current year’s “components of net cost that are not part of net outlays” section of the

reconciliation and (2) the current year budget subsidy cost should be included in the “components of net outlays that are not part of net cost” section of the reconciliation.

- The change in FCRA loan receivables should not be reflected as a reconciling item (because credit programs affect net cost and net outlays via the subsidy cost).

**II.3.8.33. Note 33: Public-Private Partnerships**

SFFAS 49, *Public-Private Partnerships: Disclosure Requirements*, paragraph 16 defines public-private partnerships (P3s) as “risk-sharing arrangements or transactions with expected lives greater than five years between public and private sector entities.” Arrangements or transactions that are not excluded by SFFAS 49 paragraph 15 and that meet the definition in paragraphs 16 through 18 should be assessed against the risk-based characteristics in paragraphs 20 and 21.

“Risk” refers to risk of financial losses beyond the types of costs anticipated in the normal course of the agreement, assuming the agreement is carried out over its expected life (i.e., it is risk not fully reflected in the consideration exchanged in executing the agreements). Such risk may relate, for example, to termination, default, or noncompliance with the agreement. Although loan, loan guarantee, insurance, and grant programs are not P3s, they may be used to finance a P3.

See SFFAS 49, paragraph 24, for the required disclosures. **Such disclosures should state in plain language the nature and magnitude of risk of loss to the reporting entity.** The magnitude of potential risk of loss should be considered in determining whether a P3 is material to the reporting entity’s financial statements. Remote risks of loss should only be disclosed if they are included in the terms of the agreement and should be accompanied by an explanation that the risk of loss is remote.

Entities should disclose the amounts received and paid by the Government during the current and prior reporting periods and amounts to be received and paid in the aggregate over the expected life of the P3, as shown in the illustrative table below. The expected life of the P3 is the term or period for which the entity is likely to participate in the P3. Similar agreements or contracts may be combined.

Public-Private Partnerships Agreements/Contracts	Fiscal Year [[Current Year] and [Prior Year]]			
	Actual Amount Received in FY	Actual Amount Paid in FY	Estimated Amount to be Received in Future Years	Estimated Amount to be Paid in Future Years
Agreement/Contract Group 1	XXX	XXX	XXX	XXX
Agreement/Contract Group 2	XXX	XXX	XXX	XXX
Agreement/Contract Group 3	XXX	XXX	XXX	XXX
Estimated Total	XXX	XXX	XXX	XXX

**II.3.8.34. Note 34: Disclosure Entities and Related Parties**

Disclose information about disclosure entities and related parties in accordance with SFFAS 47.

For each significant disclosure entity and aggregation of disclosure entities (as defined in SFFAS 47, paragraphs 43-46), disclosure requirements can be found in paragraphs 71-78.

Agencies with a small number of disclosure entities or no balances from transactions with disclosure entities may report this information in Note 1. Agencies reporting information about future exposures may include this information in their existing note on commitments or contingencies rather than duplicating that information here, but should disclose the disclosure entity in this note.

For a related party (as defined in SFFAS 47, paragraphs 80-87), disclosure requirements can be found in paragraphs 88-89.

### ***II.3.8.35. Note 35: COVID-19 Activity***

Entities with a significant amount of budgetary activity in FY 2022 associated with responding to COVID-19 (COVID) (and the economic consequences of it) should include a separate COVID note. If the entity disclosed a COVID activity note for FY 2021, the FY 2022 note should, to the extent possible, be comparative. The note should also identify all other notes that discuss COVID impacts.

The note should state the programs or activities funded with the COVID resources; the impact of the funding on the entity's assets, liabilities, costs, revenues, and/or net position; any other information management thinks would be useful to the reader of the AFR/PAR; and the illustrative table shown below, as appropriate.

COVID amounts include funds in annual and permanent appropriations that were used for COVID and funds designated with the following GTAS Disaster and Emergency Funding (DEF) Codes:

<b>DEF Code Value</b>	<b>Public Law and Type of Funding Covered by DEF Code</b>
L	Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Pub. L. No. 116-123), Emergency
M	Families First Coronavirus Response Act (Pub. L. No. 116-127), Emergency
N	Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. No. 116-136), Emergency
O	Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. No. 116-136), Nonemergency; Paycheck Protection Program and Health Care Enhancement Act (Pub. L. No. 116-139), Nonemergency; Consolidated Appropriations Act, 2021 (Pub. L. No. 116-260), Nonemergency; American Rescue Plan Act of 2021 (ARPA) (Pub. L. No. 117-2), Nonemergency
P	Paycheck Protection Program and Health Care Enhancement Act (Pub. L. No. 116-139), Emergency
U	Consolidated Appropriations Act, 2021 (ARPA) (Pub. L. No. 116-260), Emergency
V	American Rescue Plan Act of 2021 (Pub. L. No. 117-2), Nonemergency

Entities are encouraged to use a presentation similar to the illustrative table below to disclose in one table budgetary information about all COVID DEF Codes. Explain any differences between the amounts reported below and amounts reported to GTAS.

In addition to the amounts reported above, entities should separately report amounts from annual and permanent appropriations that were used for COVID, including, as appropriate, the types of information in the table above.

Significant entities required to prepare financial statements in accordance with accounting standards other than those promulgated by FASAB will be contacted by Fiscal Service for COVID information necessary for the audit of the Government-wide statements.

***II.3.8.36. Note 36: Subsequent Events***

Disclose in this note or other applicable note(s) any significant events or transactions that occurred after the date of the Balance Sheet but before the issuance of the entity’s audited financial statements that have a material effect on the financial statements and, therefore, require adjustments to or disclosure in the statements. If such disclosure is made elsewhere in the notes, this note should include references to the applicable note(s).

***II.3.8.37. Note 37: Non-Custodial Non-Exchange Revenues***

Disclose (as shown in the illustrative tables below) information about the collection of non-custodial non-exchange revenue in accordance with SFFAS 7, paragraphs 64-66, including: (1) basis of accounting; (2) for entities that collect taxes and duties, factors affecting the collectability and timing of accounts receivable; (3) for entities that collect taxes and duties, cash collections and refunds by tax year and type of tax during the current fiscal year and during the prior fiscal year(s) as appropriate; and (4) the reason(s), if any, for not recording trust fund revenues in accordance with applicable law.

***Note Disclosure Related to the Balance Sheet, SNC, and SCNP***

***II.3.8.38. Note 38: Reclassification of Financial Statement Line Items for Financial Report Compilation Process***

This note shows how line items in the statements of **significant entities** relate to line items that can be used to compile the *Financial Report* statements and is broken out between Funds from Dedicated Collections and other funds.

Significant entities using the Balance Sheet Template in section II.3.2.2 consistent with the guidance in section II.3.2.2 do not need to disclose any Balance Sheet information in this Note. However, significant entities not complying with section II.3.2.2 must disclose a reclassification of the Balance Sheet items that deviate from the Template using the crosswalk found here: [The U.S. Standard General Ledger \(treasury.gov\)](https://www.treasury.gov).

**Significant entities should (1) present the SCNP on a consolidated basis and (2) disclose Note 21 for Dedicated Collections (with combined and consolidated amounts).** Any significant entity that does not complete (1) or (2) must disclose a reclassification of the entity’s SCNP using the crosswalk found here: [The U.S. Standard General Ledger \(treasury.gov\)](https://www.treasury.gov). This USSGL site also provides a crosswalk for the reclassification of the SNC, which all significant entities must disclose.

Significant entities required to prepare financial statements in accordance with accounting standards other than those promulgated by FASAB will be contacted by Fiscal Service for reclassified statement information (including reclassified Balance Sheet information) necessary for the audit of the Government-wide statements.

Below is an explanatory note for significant entities to use to explain the reclassification note.

To prepare the *Financial Report of the U.S. Government (Financial Report)*, the Department of the Treasury requires agencies to submit an adjusted trial balance, which is a listing of amounts by U.S. Standard General Ledger account that appear in the financial statements. Treasury uses the trial balance information reported in the Government-wide Treasury Account Symbol Adjusted Trial Balance System (GTAS) to develop a Reclassified Statement of Net Cost [and a Reclassified Statement of Changes in Net Position]. Treasury eliminates intragovernmental balances from the reclassified statements and aggregates lines with the same title to develop the *Financial Report* statements. This note shows the [Entity]'s financial statements and the [Entity's] reclassified statements prior to elimination of intragovernmental balances and prior to aggregation of repeated *Financial Report* line items. A copy of the 2021 *Financial Report* can be found here: [Bureau of the Fiscal Service - Reports, Statements & Publications \(treasury.gov\)](https://www.treasury.gov/budget/financial-reports) and a copy of the 2022 *Financial Report* will be posted to this site as soon as it is released.

The term “intragovernmental” is used in this note to refer to amounts that result from other components of the Federal Government.

The term “non-federal” is used in this note to refer to Federal Government amounts that result from transactions with non-federal entities. These include transactions with individuals, businesses, non-profit entities, and State, local, and foreign governments.

Below are illustrative tables that show how agency statements are reclassified for the *Financial Report*. **Significant entities should modify the illustrative statements below to show in the two “Entity” columns the line items from their financial statements** and to show in the six Government-wide columns line items from their reclassified financial statements (broken out between Funds from Dedicated Collections and other funds).

The “Dedicated Collections Combined” column should reflect all transactions that involve Funds from Dedicated Collections, including intra-entity and inter-entity transactions. The consolidated presentation must include all inter-entity transactions that involve Funds from Dedicated Collections.

The “Dedicated Collections Eliminations” column should reflect intra-entity transactions that involve only Funds from Dedicated Collections.

The “Other than Dedicated Collections (with Eliminations)” column should reflect inter-entity transactions that involve only non-dedicated collections. It should not reflect transactions that are intra-entity (except transaction with Funds from Dedicated Collections) or transactions that are included in the Funds from Dedicated Collections Combined column.

The “Eliminations between Dedicated and Other than Dedicated Collections” column should reflect intra-entity transactions between Funds from Dedicated Collections and other funds, i.e., intra-entity transactions that involve Funds from Dedicated Collections on one side of the transaction and funds from non-dedicated collections on the other side.

The “total” column should reflect inter-entity transactions involving Funds from Dedicated Collections, inter-entity transactions not involving any Funds from Dedicated Collections, and intra-entity eliminations between Funds from Dedicated Collections and Funds from Other than Dedicated Collections.

Significant entities are not expected to use all of the lines shown below and may use additional lines that are not shown below (for amounts that are aggregated in the entity statements and disaggregated in the *Financial Report*).

When submitting financial statement notes using MAX, agencies must also submit the crosswalk used to prepare Note 38. The crosswalk must show the adjustments made to reclassify the balances, a comparison of the reclassified balances to the agency’s GTAS submission, and an explanation of any differences. The reclassified statements presented in this note should agree with the reclassified statements in GTAS and agencies should be able to support amounts reflected in GTAS, including amounts associated with Funds from Dedicated Collections.

## **II.3.9. Required Supplementary Information**

### ***II.3.9.1. Management's Discussion and Analysis***

See also Section II.2. All RSI should be presented on a comparative basis when meaningful. When information is required for the first time, it need not be reported for the prior year.

### ***II.3.9.2. Federal Oil and Gas Resources***

SFFAS 38, *Accounting for Federal Oil and Gas Resources* requires that the value of the Government's estimated petroleum royalties from the production of Federal oil and gas proved reserves to be reported in a schedule. A schedule of estimated Federal oil and gas petroleum royalties to be distributed to others must be reported for the value of estimated petroleum royalty revenue designated for others.

### ***II.3.9.3. Other Federal Natural Resources***

FASAB Technical Bulletin 2011-1, *Accounting for Federal Natural Resources Other than Oil and Gas*, clarifies that entities should report as RSI the value of the Government's estimated royalties and other revenue for other Federal natural resources that are: (1) under long-term lease, long-term contract, or other long-term agreement and (2) reasonably estimable as of the reporting date, consistent with SFFAS 38. See paragraphs 18 and 19 of Technical Bulletin 2011-1 for further guidance.

### ***II.3.9.4. Deferred Maintenance and Repairs***

In accordance with SFFAS 42, *Deferred Maintenance and Repairs: Amending SFFASs 6, 14, 29, and 32*, entities must: (1) describe their maintenance and repairs policies and how they are applied, (2) discuss how they rank and prioritize maintenance and repair activities among other activities, (3) identify factors considered in determining acceptable condition standards, (4) state whether deferred maintenance and repairs relate solely to capitalized general PP&E and stewardship PP&E or also to non-capitalized or fully depreciated general PP&E, (5) identify PP&E for which management does not measure and/or report deferred maintenance and repairs and the rationale for the exclusion of other than non-capitalized or fully depreciated general PP&E, (6) provide beginning and ending deferred maintenance and repairs balances by category of PP&E, and (7) explain significant changes from the prior year.

In addition, condition standards, related assessment methods, and reporting must be consistently applied unless management determines that changes are necessary.

### ***II.3.9.5. Social Insurance***

See SFFAS 17 paragraphs 24 through 27 and SFFAS 37 paragraph 33 for RSI disclosure requirements for social insurance programs.

### ***II.3.9.6. Combining Statement of Budgetary Resources***

Budgetary information aggregated for the SBR should be disaggregated for each of the entity's major budget accounts and presented as RSI; small budget accounts may be aggregated. The total on this combining statement should equal the amount reported on the face of the SBR.

### ***II.3.9.7. Custodial Activity***

Entities collecting taxes and duties should provide RSI related to potential collections and custodial responsibilities as stated in paragraphs 67 and 68 of SFFAS 7.

These disclosures are not applicable to exchange revenue presented on the SCA.

### **II.3.9.8. Land**

SFFAS 59 amends SFFAS 6 and SFFAS 29, among other standards, with respect to the reporting requirements for general PP&E land, stewardship land, and permanent land rights. See paragraphs 6, 7, and 9 for disclosure requirements. SFFAS 59, paragraph 15, specifies that the disclosures should be presented as RSI for FYs 2022 through 2025 and should transition to note disclosures in FY 2026.

The disclosures include, among other things, a description of the PP&E and/or stewardship land and its relationship to the entity’s mission, the estimated PP&E and/or stewardship land acreage by predominant use subcategory, and the estimated PP&E and/or stewardship land acreage available for disposal or exchange. These three disclosures should be clearly labeled for ease in compiling the *Financial Report*.

Descriptive information required by subparagraphs a, b, and e of the new paragraph 45A of SFFAS 6 and the revised paragraph 40 of SFFAS 29 should be presented in a narrative format. The information required by subparagraphs c and d of these paragraphs may be presented using tables, similar to the illustrative table below. **Entities with both PP&E land and stewardship land may present one table, showing PP&E land separately from stewardship land, or may present two separate tables.** Comparative information is not required for FY 2022.

Start of Prior Year				
End of Prior Year/Start of Current Year

<b>Held for Disposal or Exchange</b>				
End of Prior Year				
End of Current Year				

Note\*: “Predominant use” is defined by SFFAS 59, *Accounting and Reporting of Government Land*, and does not affect statutory provisions governing land use.

To better understand FASAB’s expectations regarding the disclosures, see the following paragraphs from the “Basis for Conclusions” section of SFFAS 59: paragraphs A25-A27 (for predominant use), paragraph A35 and A37 (for supporting documentation), and paragraph A36 (for estimate precision and methodology). Under paragraph A35, entities are encouraged “to communicate any challenges as well as suggestions in sub-categorizing land use reporting to the [FASAB] Land Implementation Task Force [once established].”

Entities with material amounts of land holdings should participate in any working groups established by FASAB pursuant to paragraph A39, which states that “[t]he Board intends to establish working groups ... to conduct ... assessment and research activities” related to any implementation challenges that may arise during the RSI phase.

## **II.4. Other Information – AFR Section 3/PAR Section 4**

### **II.4.1. Summary of Financial Statement Audit and Management Assurances**

Tables 1 and 2 below are required. Entities are encouraged to present this summary as the first item in Other Information.

Each material weakness should be listed using a unique, short name. As discussed in Section II.2.5, management should review its FMFIA assurance statements for consistency with the findings specified in the annual financial statement audit report. Management’s and the auditor’s conclusions could be different, but they should not be in direct conflict. When management does not agree with the auditor, management should explain why it does not agree and describe how the disagreement will be addressed. To the extent possible, material weakness names should be kept constant from year to year.

Significant deficiencies are not required to be reported.

Beginning balances should be included in the table when the draft AFR or PAR is submitted to OMB even if auditor-reported material weaknesses have not yet been identified.

3. USSGL at Transaction Level	No lack of compliance noted, or Lack of compliance noted			No lack of compliance noted, or Lack of compliance noted		

- Beginning Balance:** The beginning balance must agree with the ending balance from the prior year.
- New:** The total number of material weaknesses/non-conformances identified during the current year.
- Resolved:** The total number of material weaknesses/non-conformances that dropped below the level of materiality in the current year.
- Consolidated:** The combining of two or more findings.
- Reassessed:** The removal of any finding not attributable to corrective actions (e.g., management has re-evaluated and determined that a finding does not meet the criteria for materiality or is redefined as more correctly classified under another heading).
- Ending Balance:** The year-end balance that will be the beginning balance next year.

## **II.4.2. Revenue Forgone**

If the entity discloses differences between the price it charges in exchange transactions and the full cost or market price, it should consider providing an estimate of the amount of revenue forgone and explaining to what extent the quantity demanded was assumed to change as a result of a difference in price.

## **II.4.3. Tax Burden, Tax Gap, and Tax Expenditures**

Entities that collect taxes may consider presenting (1) a perspective on the income tax burden and (2) information on the size of the tax gap in accordance with SFFAS 7, paragraph 69.

Entities with information on tax expenditures may present such information in accordance with SFFAS 7, paragraph 69.3.

## **II.4.4. Management and Performance Challenges**

As required by the Reports Consolidation Act of 2000, the AFR or PAR must include a statement by the agency's IG summarizing what the IG considers to be the most serious management and performance challenges facing the agency and assessing the agency's progress in addressing those challenges. The statement must be provided to the agency head at least 30 days before the AFR or PAR due date and comments by the agency head, if made, should follow the IG's statement and address each IG challenge. The agency head may comment on, but may not modify, the IG statement.

## **II.4.5. Payment Integrity Information Act Reporting**

Each Executive Branch agency must complete the Annual Data Call issued by OMB and provide a link to [PaymentAccuracy.gov](https://www.paymentaccuracy.gov) in their AFR or PAR. The Data Call helps to fulfill reporting requirements under the Payment Integrity Information Act of 2019 (Pub. L. No. 116-117) (PIIA) and provides the public with comprehensive improper payment data and information on [PaymentAccuracy.gov](https://www.paymentaccuracy.gov).

Each Executive Branch agency is responsible for contacting OMB ([PaymentIntegrity@omb.eop.gov](mailto:PaymentIntegrity@omb.eop.gov)) by September 1<sup>st</sup> of the reporting year to gain access to the Annual Data Call and consulting the Annual Data Call guidance (<https://community.max.gov/x/HsVHg>) to determine which requirements are applicable.

If an Executive Branch agency performs recovery audits (a review and analysis of an agency's or program's accounting and financial records, supporting documentation, and other pertinent information supporting its payments, that is specifically designed to identify overpayments) and has received recommendations from their recovery audit contractor regarding actions that can be taken to prevent overpayments, the Executive Branch agency should report on the actions taken in their AFR or PAR.

For FY 2022, agencies with High-Priority programs (programs with estimates of improper payments resulting in monetary loss that exceeds \$100 million annually) are encouraged and for FY 2023 agencies with High-Priority programs will be required to provide in their AFR or PAR a summary of their payment integrity activities and results. The summary should include:

- In plain language, a description of improper payments made by the agency; an estimate of the improper payment amount and rate; an explanation of the causes of improper payments; and any major actions taken or planned to mitigate those causes.
- An explanation for changes in payment integrity methodologies, activities, or results that occurred during the reporting period.
- A hyperlink for [PaymentAccuracy.gov](https://www.paymentaccuracy.gov). The summary should not be in conflict with data that is available on [PaymentAccuracy.gov](https://www.paymentaccuracy.gov), which is intended to be the complete source for all qualitative and quantitative payment integrity information, including contextual information.

#### II.4.6. Other Agency-specific Statutorily Required Reports

Any statutorily required reports not addressed in this Circular that pertain to financial or performance management may be included in the AFR or PAR after consultation with OMB and Congress. The head of the agency must determine if inclusion of an agency-specific report will make the reported information more useful to decision makers. Consultation with Congress includes the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Oversight and Reform of the House of Representatives, and any other committee of Congress having jurisdiction over the report being proposed for consolidation.

#### II.4.7. Civil Monetary Penalty Adjustment for Inflation

Under the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, agencies must make annual inflation adjustments to civil monetary penalties and report on these adjustments in their AFR or PAR.

Agencies must include, as OI, information about civil monetary penalties within their jurisdiction and the annual inflation adjustments made under the Act and are encouraged to include a table providing this information, as suggested below.

Statutory Authority	Penalty Name & Description	Year Enacted	Latest year of adjustment (via statute or regulation)	Current Penalty (Dollar Amount or Range)	Bureau Name	Location for Penalty Update Details
XX U.S.C. XXX; XX CFR XXX.XXX [Insert statutory and regulatory citations.]	XYZ Act: Violation of [Specify statutory requirements that are subject to		2020	Minimum: \$X Maximum: \$XX		[Insert Federal Register citation(s) and hyperlink(s).]

#### II.4.8. Biennial Review of User Fees

Under 31 U.S.C. § 902, CFOs are required to review on a biennial basis fees, royalties, rents and other charges imposed by the agency for services and things of value it provides and to make recommendations on revising those charges. The results of this review may be included in the AFR or PAR. See OMB Circular A-25, *User Charges*, for more information.

**II.4.9. Grants Programs**

To promote the efficient administration of grants programs, significant reporting entities with Federal grants programs must submit a brief high-level summary of expired, but not closed, Federal grants and cooperative agreements (awards), including:

1. A summary table (as shown below) of the total number of awards and balances for which closeout has not yet occurred, but for which the period of performance has elapsed by two years or more prior to September 30, 2022 (i.e., on or before September 30, 2020).

CATEGORY	2-3 Years	4-5 Years	More than 5 Years
Number of Grants/Cooperative Agreements with Zero Dollar Balances			
Number of Grants/Cooperative Agreements with Undisbursed Balances			
Total Amount of Undisbursed Balances			

2. A brief narrative of the progress made over the past year compared to the previous year’s report, challenges preventing closeout of awards reported, and actions to be taken to close awards reported.

**II.4.10 Climate-Related Financial Risk**

***II.4.10.1 Required Hyperlinks to Reports***

For FY 2022, **significant entities** must include hyperlinks to Climate Action Plans, Sustainability Reports and Implementation Plans, and other similar reports with information relevant to climate-related risk or climate-related financial risk that the entity issued during FY 2022.<sup>10</sup>

***II.4.10.2 Optional Budget Information***

In addition, for FY 2022, **significant entities** are encouraged to report the following information to the extent it is available:

FY 2021 budget authority or outlays related to reducing the Federal Government’s exposure to climate-related financial risks. Related expenditures include:

- a. preparedness for extreme weather events;
- b. efforts to reduce risks from sea level rise, such as investments in modeling, levees, or natural barriers;
- c. flood mitigation, flood communication, and flood mapping activities;
- d. maintenance and repairs to Federal facilities that aim to reduce future risks from climate change;

<sup>10</sup> Climate Action Plans and Sustainability Reports and Implementation Plans are posted at [sustainability.gov](https://sustainability.gov), [Office of the Federal Chief Sustainability Officer](#), and on agency websites.

- e. investments in federally managed land, infrastructure, and waterways that reduce future climate risks;
- f. climate-smart agriculture practices;
- g. response, safety, and preparedness efforts around extreme heat;
- h. expenditures that improve energy efficiency and the capability of future climate-related risks;
- i. tools used to assess exposure to future climate risks; and
- j. incentives for nature-based solutions to climate risks;

For additional information and discussion of Federal climate-related financial risks, please see: (1) assessments found in the *Analytical Perspectives* of the FY 2023 Presidents Budget, [Federal Budget Exposure to Climate Risk \(whitehouse.gov\)](https://www.whitehouse.gov/briefing-materials/2022/02/23/federal-budget-exposure-to-climate-risk/), (2) an [OMB white paper OMB Climate Risk Exposure 2022.pdf \(whitehouse.gov\)](https://www.whitehouse.gov/briefing-materials/2022/02/23/omb-climate-risk-exposure-2022.pdf), and (3) a new climate-change discussion in the “Long-Term Budget Outlook” chapter of the *Analytical Perspectives*, [Long-Term Budget Outlook \(whitehouse.gov\)](https://www.whitehouse.gov/briefing-materials/2022/02/23/long-term-budget-outlook/).

### ***II.4.10.3 Optional Governance, Strategy, Risk Management, and Metrics Information***

Also, for FY 2022, **significant entities** are encouraged to report the following four types of information regarding the entity’s assessment and management of any significant climate-related risk.<sup>11</sup>

**Governance:** Describe (1) the entity head’s and/or other senior leadership’s oversight of climate-related risks and opportunities and (2) management’s role in assessing and managing climate-related risks and opportunities.

**Strategy:** Describe (1) the climate-related risks (both immediate and long-term physical risk, as defined above, and transition risk, i.e., risk to transitioning to a lower-carbon economy) and opportunities the entity has identified over the short, medium, and long term; (2) the impact of these risks and opportunities on the entity’s programs, strategy for achieving organizational objectives, and future plans; and (3) the resilience of the entity’s strategy to changes in climate-related risk (i.e., considering alternative climate-related scenarios).

Significant entities with loan and loan guarantee programs are encouraged to describe significant concentrations of credit program exposure to carbon-related assets, any climate-related scenarios used to assess climate-related risk, and how the entity’s strategy may be affected by a transition to a lower-carbon economy.

**Risk Management:** Describe (1) the entity’s processes for identifying and assessing climate-related risks; (2) the entity’s processes for managing climate-related risks; and (3) how these processes are integrated into the entity’s overall risk management. See OMB Circular A-123 for guidance on enterprise risk management generally.

---

<sup>11</sup> Climate-related risk in this section refers to extreme weather events and/or weather-related risks, which is slightly different from the definition used by Task Force on Climate-related Financial Disclosures (TCFD), which is the potential negative impact of climate change on an entity. Climate change resources, including the [Fourth National Climate Assessment | GlobalChange.gov](https://www.globalchange.gov/2018/04/11/fourth-national-climate-assessment/) (NCA4), the [U.S. Climate Resilience Toolkit | U.S. Climate Resilience Toolkit](https://www.usclimate.gov/USClimate/ResilienceToolkit/), and [resources for Federal climate change adaptation](https://www.globalchange.gov/resources-for-federal-climate-change-adaptation/), are available at: [GlobalChange.gov](https://www.globalchange.gov).

Significant entities with loan and loan guarantee programs are encouraged to characterize any climate-related risks (both physical and transitional, as described above) as credit, liquidity, operational or other risk. Such entities are also encouraged to describe how their portfolio is positioned to transition to an economy with lower-carbon energy supply, production, and use.

**Metrics:** (1) Describe the metrics used by the entity to assess climate-related risks and opportunities in line with the entity’s overall organizational strategy and risk management; (2) provide a link to the Scope 1 and 2 greenhouse gas emissions section of the entity’s Sustainability Report, [Federal Sustainability and Adaptation Progress | Office of the Federal Chief Sustainability Officer](#), and describe any related risks; and (3) describe the targets used by the entity to manage climate-related risks and opportunities and performance against those targets.

Significant entities with loan and loan guarantee programs are encouraged to consider whether climate-related risks should be broken down by industry, geography, credit quality, time to maturity, or other relevant characteristic. If possible, such entities are encouraged to report aggregated risk exposure to weather-related catastrophes to program assets or collateral and describe whether these metrics have changed over time and how they factor into asset management.

Significant entities with significant housing or other buildings programs are encouraged to report metrics related to the potential impact of greenhouse gas emissions, energy, and water on revenue, costs, assets, and/or liabilities.

#### **II.4.11 Agency Audit Resolution Reports**

Entities required to produce reports from the Agency Head under 5 U.S.C. Appendix 3 section 5(b) may include such reports in the AFR as provided by the Reports Consolidation Act (31 U.S.C. section 3516). Such entities are encouraged to do so if the AFR is the usual method for publishing the reports. See page 267 of USDA’s FY 2020 AFR, [USDA 2020 AFR](#), and page 144 of NASA’s FY 2020 AFR, [FY2020 Agency Financial Report - NASA](#).

In addition, entities that provide a separate report to Congress under 5 U.S.C. Appendix 3 section 5(b) may include a summary of agency audit resolution in the AFR or PAR (either in the MD&A or as Other Information). See pages 61-62 of USAID’s FY 2021 AFR, [USAID Fiscal Year 2021 Agency Financial Report: Six Decades of Progress](#).

### **III. INTERIM STATEMENTS AND NOTES AND VARIANCE ANALYSES FOR INTERIM AND YEAR-END STATEMENTS**

#### **III.1. Interim Statements and Notes**

By August 15<sup>th</sup>, significant entities must use MAX to submit unaudited interim, as of June 30<sup>th</sup>, financial statements (Balance Sheet, SNC, and SCNP) and notes. In addition, Fiscal Service will contact selected agencies using MAX notifications that the significant disclosure templates are available.

#### **III.2. Statement Variances Required**

Significant entities must provide **comparative interim and year-end financial statement variance analyses** for the Balance Sheet, SNC, SCNP in a spreadsheet or a PDF format.

- The variance analyses for the three financial statements should be in a file or attachment separate from the statements; a separate variance file is not required for each statement.
- The analyses should reflect year over year variances, i.e., variances that exceed \$1 billion and 10 percent **between the third quarter and the prior-year third quarter and between year-end and the prior year-end** amount. Entities are encouraged to discuss year-end variances in excess of \$1 billion and 10 percent in the applicable note.
- If a financial statement does not have variances between the comparative periods, then that should be noted.
- The analyses should include management’s explanation for variances in types or amounts of assets, liabilities, costs, revenues, unexpended appropriations, and financing sources.

The analyses are due **by August 15<sup>th</sup> for the third quarter and November 15<sup>th</sup> for fiscal year-end.**

## **IV. GOVERNMENT-WIDE FINANCIAL REPORT**

### **IV.1. Introduction**

The Secretary of the Treasury, in coordination with the Director of OMB, prepares Government-wide financial statements and the Comptroller General audits the statements.

### **IV.2. Submission of Agency Data for Financial Report Compilation**

#### **IV.2.1. Significant Reporting Entities**

All significant reporting entities must provide Fiscal Service with the required fiscal year-end data that is used to prepare the *Financial Report* using GTAS. Note 38 links the entities’ audited consolidated department-level financial statements to the *Financial Report*.

#### **Note 38 Requirements**

- All significant entities must provide Note 38 information for the SNC.
- Significant entities that do not use the Balance Sheet Template (from Section II.3.2.2) or do not use the Dedicated Collections Template in Note 21 must provide Fiscal Service Note 38 information for the Balance Sheet.
- Significant entities with Dedicated Collections that present the SCNP on a combined basis or do not complete Note 21 must provide Fiscal Service Note 38 information for the SCNP.

Entities required to prepare statements in accordance with accounting standards other than those promulgated by FASAB will be contacted by Fiscal Service for Note 38 information necessary for the audit of the Government-wide statements.

As noted below, significant entities are required to reconcile intragovernmental balances with trading partners and resolve any identified differences throughout the reporting period and must submit intragovernmental balance information by trading partner.

Significant entities with a year-end other than September 30 are limited to audit assurance on material line items and note disclosures to which the significant entities contribute.

The Office of the CFO must provide a copy of the management representation letter (see Section IV.5) for the preparation of the Government-wide management representation letter and for the compilation of the *Financial Report*. The Office of the IG must provide a copy of the legal representation letter and related schedules for the compilation of the *Financial Report*. (See IV.4 and IV.5 for additional guidance).

#### **IV.2.2. All Executive Branch Entities**

All Executive Branch entities, including entities required to prepare statements in accordance with accounting standards other than FASAB, must submit their pre-closing adjusted trial balances through GTAS for the compilation of the *Financial Report*. (Reporting entities from the Legislative and Judicial Branches of the United States Government may submit their adjusted trial balances.) The section pertaining to GTAS reporting can be found in the TFM, Volume 1, Part 2, Chapter 4700, Section 4755. The list of entities that are required to comply with this reporting requirement is provided in the TFM, Volume 1, Part 2, Chapter 4700, Appendix 1a.

#### **IV.2.3. Reporting Under a Fiscal Year Other than the Federal Fiscal Year**

Certain entities have fiscal year-ends other than September 30 and are referred to as “calendar-year entities.” Calendar-year entities must: (1) report to GTAS the September 30th balances in their adjusted trial balance, (2) obtain audit assurance on line items or note disclosures that contribute to the top 95 percent of the total line item data that are reported by Treasury, and (3) provide Fiscal Service a copy of the independent audit report that includes the results of the audit performed on the material line items and note disclosures identified by Fiscal Service. (See the TFM Volume 1, Part 2, Chapter 4700, Section 4735.40, Special Basis of Accounting, for additional guidance.) See section IV.5 for management representation requirements.

#### **IV.2.4. Submission of Interim Data**

Fiscal Service will use entities’ unaudited financial statements, notes, and other information as of June 30th for preliminary analysis for the *Financial Report*. As stated in Section III, significant entities must provide unaudited interim financial statements and notes using MAX.

In addition, Fiscal Service will contact selected agencies, including entities required to prepare statements in accordance with accounting standards other than those promulgated by FASAB, to gather information needed for certain *Financial Report* notes and supplemental information. This includes investment information (Note 5), Dedicated Collections information (Note 21), COVID information (Note 35), and reclassified statement information (Note 38).

Agencies should prepare their year-end GTAS data entries as early as possible and notify Fiscal Service when the agency’s final year-end GTAS information has been submitted to the agency auditor and is available for review by Fiscal Service.

### **IV.3. Reconciling and Resolving Differences in Intragovernmental Balances and Transactions**

Intragovernmental balances and transactions are integral to the consolidation of the financial information and the compilation process for the *Financial Report*. Transactions between and among Federal entities that can generate intragovernmental balances include:

- services or goods bought/sold, (i.e., buy/sell transactions),

- transfers of assets or budget authority,
- custodial and non-entity transactions with Federal entities other than the General Fund,
- transactions with the General Fund,
- investments or borrowings with the Treasury (Fiscal Service and the Federal Financing Bank), and
- benefits-related transactions with the Department of Labor and OPM.

**Throughout the fiscal year and at year end, entities are required to reconcile intragovernmental balances and transactions with trading partners and resolve any identified differences, with the goal of resolving all differences prior to final submission of data for the *Financial Report*.**

See TFM 2-4700 for further guidance.

#### **IV.4. Legal Representation Letter**

Significant entity IGs must submit an interim and a final Legal Representation Letter prepared by the entity General Counsel summarizing and evaluating legal actions against the entity.

The entity General Counsel should (1) refer to OMB’s audit bulletin and (2) report pending and threatened litigation and unasserted claims above material dollar thresholds, which were agreed upon by the entity management and the IG. The General Counsel should provide the Legal Representation Letter in PDF format using the applicable forms (according to the type of case or group of cases reported) found at [Documents and Forms \(justice.gov\)](https://www.justice.gov/documents).

Significant entity management should prepare a Management Schedule that summarizes the content of the Legal Representation Letters as disclosed in the entity’s financial statements using the template found at [Governmentwide Treasury Account Symbol](#).

Significant entity IGs must submit the Legal Representation Letters (combined and in PDF format) and Management Schedules (spreadsheet format only) to Fiscal Service, DOJ, and GAO via email.

The IG must notify GAO, DOJ, and Fiscal Service (see Appendix B for contact information) whether there were “no changes” or “changes” due to subsequent events that resulted in a change in the likelihood of loss or the amount of loss, or both, after the effective date of the final Legal Representation Letter but before the date of the audit report on the *Financial Report*. See TFM Volume I, Part 2, Chapter 4700, Section 4745, for additional guidance and FY 2022 Year-end Closing Bulletin for applicable due dates.

#### **IV.5. Written Representations from Management**

Significant entity management representations, including those from calendar-year entities, must include all representations that are required by generally accepted auditing standards, OMB’s audit bulletin (Section 8, Written Representations from Management, and Appendix E), and TFM, Volume I, Part 2 Chapter 4700 (TFM-4700), *Agency Reporting Requirements for the Financial Report of the United States Government*.

U.S. Auditing Standards (Clarified) (AU-C) Section 580, *Written Representations*, provides specific representations that should be included in the written representations from management

and states that one or more additional written representations from management may be necessary to support other audit evidence relevant to the financial statements or one or more specific assertions in the statements. The representations will depend on the circumstances of the engagement and the nature and basis of presentation of the financial statements. See AU-C Section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, and AU-C Section 730, *Required Supplementary Information*, for representations that should be obtained from management for RSI. General representations must be modified to be consistent with auditor-reported findings.

Under AU-C Section 580, management's representations may be limited to matters that are considered either individually or collectively material to the financial statements if management and the auditor have reached an understanding on materiality for this purpose. Materiality may be different for different representations. Management will specify materiality threshold(s) (as agreed upon with the auditor) in the written representations. Materiality considerations only apply to those representations that are directly related to amounts included in the financial statements. Because of the possible effects of fraud on other aspects of the audit, materiality does not apply to management's acknowledgment regarding its responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

Also, in accordance with AU-C Section 580, the written representations from management should be signed by those members of management with overall responsibility for financial and operating matters and who the auditor believes are responsible for and knowledgeable about, directly or through others in the organization, the matters covered by the representations. Such members of management generally include the head of the agency, the CFO, and any others deemed responsible for matters presented in the written representations.

As required by AU-C Section 580, the written representations from management should include a representation regarding the materiality of uncorrected financial statement misstatements identified by the auditor. A list of any uncorrected misstatements, using the "iron curtain" and rollover methods, should be attached to the written representations from management (see FAM Section 595C). If there are no uncorrected misstatements, a representation to this effect should be included in the management representation letter. In addition, the adjusting entries to correct the misstatements must be provided in the **standardized spreadsheet format** as shown in the FAM Section 595C along with the items listed below.

- The effect of the current-year's uncorrected misstatements and the carry-forward effect of the prior-year's uncorrected misstatements.
- USSGL account number and account description.
- Federal (F), General Fund (G), Non-reciprocating (Z), or Non-federal (N) attribute for each USSGL account affected.
- A reference to an adjustment number or documentation reference.
- An indication as to whether management has agreed to record the adjustment in its financial statements.
- A statement as to whether the uncorrected misstatement is factual, judgmental, or projected.
- A description of the adjustment.

- The amount of the debit or credit.
- The line items affected in the entity’s financial statements.

The Office of the CFO of significant entities should submit the signed written representations from management electronically in PDF format to OFFM, Fiscal Service, and Treasury (Main) using MAX and to GAO using the contact information provided in Appendix B. The written representations from management should be submitted as soon as they are available but no later than when the audited financial statements are due (see FY 2022 Year-end Closing Bulletin for the *Financial Report* due dates).

#### **IV.6. Subsequent Events and Written Representations Update**

Subsequent events, for the purposes of this section, are events occurring after the date the significant entity’s management representations have been signed and financial statements have been issued and before the date specified by Treasury. These events may include, for example, the enactment of significant legislation, the occurrence of events affecting the realization of assets (such as receivables), or the settlement of estimated liabilities or contingencies (under SFFAS 39. *Subsequent Events: Codification of Accounting and Financial Reporting Standards Contained in the AICPA Statement on Auditing Standards*) that would have materially affected the significant entity’s financial statements had the significant entity’s report date been the date specified by Treasury.

The significant entity head, CFO, or others deemed responsible for management representations must email a subsequent events update to OFFM, Fiscal Service, Treasury (Main), and GAO (see Appendix B for contact information and the FY 2022 Year-end Closing Bulletin for the *Financial Report* due dates). The notification should include: (1) the purpose of the update, (2) the subsequent events update, (3) the management representation update, and (4) a representation regarding the use of the update.

Below is an illustrative statement regarding the purpose of the update:

The purpose of this notification is to inform you whether (i) any subsequent events have occurred since the date of our AFR through [today/date specified by Treasury] that would have materially affected the amounts reported in our financial statements or would warrant additional disclosure had our report date been the date specified by Treasury and (ii) whether anything has come to our attention that would require us to modify our written management representations furnished to our auditors and sent to you on [insert date].

#### **Subsequent Events Update:**

If significant subsequent events occurred that would have required changes to amounts reported or additional disclosures, entities must describe the events. Below are illustrative statements of such updates:

After the issuance of our financial statements on November 15, 202X, Hurricane ABC occurred, which caused us to incur costs of \$XX billion in disaster relief, \$X billion of which was provided in Public Law 1XX-XX and \$X billion of which was available from unobligated carryover balances in the Disaster Relief Fund.

**OR**

After the issuance of our financial statements on November 15, 202X, a contingency existing as of September 30, 202X, was resolved, which caused us to pay \$XX billion. Our financial statements as of September 30, 202X, reflected a contingent liability related to such matter of \$YY billion.

If there are “no changes” to report, the following illustrative statement may be used:

Nothing has come to our attention that would materially affect amounts reported in our financial statements for the fiscal years ended September 30, 202X and 202Y or require additional disclosures to these financial statements.

**Management Representation Update:**

If subsequent events occurred through the date specified by Treasury or circumstances have changed that affect the management representations, the significant entity will need to identify which representations need to be changed and how those representations need to be changed.

If no subsequent events occurred, then the following illustrative representation may be used:

Nothing has come to our attention that would require modification to the written representations from management furnished to our auditors and sent to you on [November XX, 202X].

**Representation Regarding Use of Update:**

Regardless of whether a significant entity reports a subsequent event, the subsequent events notification must state that the entity understands how the subsequent events update will be used by Treasury and OMB. The following illustrative paragraph may be used:

We understand that these representations will be relied upon by the Treasury and OMB in preparing the Government-wide written representations from management provided to the Government Accountability Office as part of its audit of the United States Government consolidated financial statements for the fiscal years ended September 30, 202X and 202Y.

**IV.7. Due Dates and Requirements**

Except for the subsequent events updates, the due dates and requirements in the FY 2022 Year-end Closing Bulletin for the *Financial Report* due dates, and Section I.5 of this Circular are “no later than” dates; earlier submissions are encouraged. Subsequent events updates are subject to specific due dates and times.
